Terrorism Studies John Horgan, Kurt Braddock, 2012 This comprehensive reader seeks to equip the aspiring student based anywhere in the world with a comprehensive introduction to the study of terrorism National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use The Israeli response to Jewish extremism and violence Ami Pedahzur, 2013-07-19 This book looks at the theoretical issue of how a democracy can defend itself from those wishing to subvert or destroy it without being required to take measures that would impinge upon the basic principles of the democratic idea It links social and institutional perspectives to the study and includes a case study of the Israeli response to Jewish extremism and violence which tests the theoretical framework outlined in the first chapter There is an extensive diachronic scrutiny of the state s response to extremist political parties violent organizations and the infrastructure of extremism and intolerance within Israeli society The book emphasises the dynamics of the response and the factors that encourage or discourage the shift from less democratic and more democratic models of response An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence Zionist Israel and the Question of Palestine Tamar Amar-Dahl, 2016-11-07 After half a century of occupation and tremendous costs of the conflict Israel is still struggling with the idea of a Palestinian state in what is often perceived as the Biblical Eretz Israel Mapping Zionism enemy images peace and war policies as well as democracy within the Jewish State the present study offers original insights into Israel s role in this conflict By analyzing Israeli history politics and security oriented political culture as it has been evolving from 1948 on this book reveals the ideological and political structures of a Zionist oriented state and society In doing so it uncovers the abyss between the Zionist vision of Eretz Israel on the one hand and the aspiration to achieve normalization peace and security on the other In view of this conflict laden bi national reality the Palestinian question is identified as the Achilles heel of Jewish statehood in the Land of Israel Thus Zionist Israel and the Question of Palestine provides a fresh innovative critical and yet accessible perspective on one of

the most controversial issues in contemporary history *The Arab Public Sphere in Israel* Amal Jamal,2009-10-16 In this pathbreaking study Amal Jamal analyzes the consumption of media by Arab citizens of Israel as a type of communicative behavior and a form of political action Drawing on extensive public opinion survey data he describes perceptions and use of media ranging from Arabic Israeli newspapers to satellite television broadcasts from throughout the Middle East By participating in this semi autonomous Arab public sphere the average Arab citizen can connect with a wider Arab world beyond the boundaries of the Israeli state Jamal shows how media aid the community's ability to resist the state's domination protect its Palestinian national identity and promote its civic status
