

CRITICAL THINKING CHAPTER 1 NOTES

Statement- an assertion that something is or is not the case. They are either true or false. Not asking something, but stating, it can be in form of a question however.

Argument- a group of statements in which some of them (the premises) are intended to support another of them (the conclusion).

Premise- In an argument, a statement, or reason, given in support of a conclusion.

Conclusion- In an argument, the statement that the premises are intended to support.

Example of Premise and Conclusion

1. (Premise) because you want a job that will allow you to make a difference in the world (Conclusion) you should consider working for a charitable organization.
2. (Premise) When Joseph takes the bus, he's always late. (Premise) and he's taking the bus today. (Conclusion) so I'm sure he's going to be late.

Inference- the logical link between premises and conclusion. An inference is the mental process of reasoning from a premises to a conclusion based on those premises.

NON ARGUMENTS-

1. The cost of the new XJ fighter jet is \$650 million. The cost of three AR21 bomber is \$1.2 billion. The Canadian government intends to fund such projects. (No argument, all claims but not conclusion present to support).
2. Allisha used the online banking app on her iPhone to check the balance of her chequing account. It said her balance was \$125. Allisha was stunned that it was so low. She called her brother to see if he was playing one of his stupid pranks. He said he hadn't. She wondered: was she the victim of banking fraud? (No claims or reasons, does not convince the reader of anything, just a descriptive story).

Explanation- people confuse explanations with arguments. An argument gives us a reason for believing that something is the case- that a claim is true. An explanation tells us why or how something is the case.

1. Adam obviously stole the money; he was the only one with access to it.
2. Yes, Adam stole the money, but he did it because he needed it to buy food.

Statement 1 is an argument. Statement 2 is an explanation. Statement 1 tries to show that something is the case-that Adam stole the money and the reason is that he alone had access to it.
