Medieval English Poetry Stephanie Trigg, 1993 The essays in this volume consider a range of poetic texts written in England between the twelfth and fifteenth centuries with the exception of works by Chaucer and represent some of the exciting new developments in medieval studies over the last twenty years The collection explores and interrogates the established canon of Middle English poetry and includes several studies of two major poems Sir Gawain and the Green Knight and Piers Plowman and essays on some less well known works including Havelok the Dane The Owl and the Nightingale and The Flower and the Leaf In a field that has been dominated by historical scholarship and conservative new criticism Medieval English Poetry brings together some of the most controversial work currently being done in Middle English studies this collection reveals the strength and depth of this research in feminist Marxist historicist reader response and deconstructionist method It includes contributions from David Aers Sheila Delany Anne Middleton and Lee Patterson Stephanie Trigg s illuminating introduction examines some of the patterns that have emerged in the criticism of medieval literature this century and pays particular attention to our constructions and definitions of the medieval The range of material covered together with the detailed headnotes to each of the thirteen essays and the guide to further reading make this book essential reading for all undergraduate and postgraduate students of Medieval English Literature

Toward a Medieval Poetics Paul Zumthor, 1992 A translation of the 1972 French analysis of the dynamics of textual production in the Middle Ages that marked a major shift in scholarly discourse about medieval literature Integrating the tools of linguistics and textual criticism does not come to conclusions but proposes approaches and methods for investigation Annotation copyrighted by Book News Inc Portland OR

The Ethical Poetic of the Later Middle Ages Judson Boyce Allen, 1982-12-15 This study of the definition of literature in the late medieval period is based on manuals of writing and on literary commentary and glosses It defines a method of reading which may now profitably explain medieval texts and identifies new primary medieval evidence which may ground and guide new reading Allen chooses texts whose commentary tradition provides the greatest opportunity for completeness The most important of these is Ovid s Metamorphoses Medieval readings of Ovid bring into focus a number of major literary questions the problems of fable and fiction of unity imposed by miscellany poetry of allegorical commentary and of Christian use of pagan culture all in connection with text which furnished medieval authors with more stories than any other single source except possibly the Bible Allen also studies commentaries on the Consolation of Philosophy of Boethius the Thebaid of Statius the De nuptiis of Martianus Capella the medieval Christian hymn book and the Poetria nova of Geoffrey of Vinsauf Together these texts represent the range of medieval literature a literature which Allen concludes was taken as direct ethical discourse logically conducted and artfully organized within a system of language that also assimilated the natural world and sought to absorb its audience

Twentieth-Century Chaucer Criticism Kathy Cawsey,2016-02-17 Shifting ideas about Geoffrey Chaucer s audience have produced radically different readings of Chaucer s work over the course of the past century Kathy Cawsey in her book on the changing relationship among Chaucer critics and theories of audience draws on Michel Foucault s concept of the author function to propose the idea of an audience function which shows the ways critics concepts of audience affect and condition their criticism Focusing on six trend setting Chaucerian scholars Cawsey identifies the assumptions about Chaucer s audience underpinning each critic s work arguing these ideas best explain the diversity of interpretation in Chaucer criticism Further Cawsey suggests few studies of Chaucer s own understanding of audience have been done in part because Chaucer criticism has been conditioned by scholars latent suppositions about Chaucer s own audience In making sense of the confusing and conflicting mass of modern Chaucer criticism Cawsey also provides insights into the development of twentieth century literary criticism and theory **Critics on Chaucer** Sheila Sullivan,1970 Classical and medieval criticism

George Saintsbury,1902 *A History of Criticism and Literary Taste in Europe from the Earliest Texts to the Present Day*

George Saintsbury,1923 *Love and its Critics* Michael Bryson,Arpi Movsesian,2017-07-10 This book is a history of love and the challenge love offers to the laws and customs of its times and places as told through poetry from the Song of Songs to John Milton s Paradise Lost It is also an account of the critical reception afforded to such literature and the ways in which criticism has attempted to stifle this challenge Bryson and Movsesian argue that the poetry they explore celebrates and reinvents the love the troubadour poets of the eleventh and twelfth centuries called fin amor love as an end in itself mutual and freely chosen even in the face of social religious or political retribution Neither eros nor agape neither exclusively of the

body nor solely of the spirit this love is a middle path Alongside this tradition has grown a critical movement that employs a hermeneutics of suspicion in Paul Ricoeur s phrase to claim that passionate love poetry is not what it seems and should be properly understood as worship of God subordination to Empire or an entanglement with the structures of language itself in short the very things it resists The book engages with some of the seminal literature of the Western canon including the Bible the poetry of Ovid and works by English authors such as William Shakespeare and John Donne and with criticism that stretches from the earliest readings of the Song of Songs to contemporary academic literature Lively and enjoyable in its style it attempts to restore a sense of pleasure to the reading of poetry and to puncture critical insistence that literature must be outwitted It will be of value to professional graduate and advanced undergraduate scholars of literature and to the educated general reader interested in treatments of love in poetry throughout history *Formal Aspects of Medieval German Poetry: A Symposium* ,1969 **Poetry Criticism** Michelle Lee,2007 Each volume provides substantive critical essays and biographical information on four to eight major poets from all eras A cumulative title index to the entire series is published separately included in subscription **A History of Criticism and Literary Taste in Europe from the Earliest Texts to the Present Day: Classical and mediæval criticism** George Saintsbury,1900 **Middle English Literature** Roger Dalrymple,2008-04-15 Middle English is a student guide to the most influential critical writing on Middle English literature A student guide to the most influential critical writing on Middle English literature Brings together extracts from some of the major authorities in the field Introduces readers to different critical approaches to key Middle English texts Treats a wide range of Middle English texts including The Owl and the Nightingale The Canterbury Tales and Morte d Arthur Organized around key critical concerns such as authorship genre and textual form Each critical concern can be used as the basis for one week s work in a semester long course Enables readers to forge new connections between different approaches
