Criticism in Action Dena Goodman,2019-05-15 Dena Goodman here offers a fresh explanation of how critical theory broke out of the mold of an earlier tradition of discourse the mirror for princes genre and shaped its own course in the eighteenth century Criticism in Action provides a historical analysis of French Enlightenment texts as actions and as the focus of critical activity in which writers and their potential readers participate Goodman approaches texts as forces that shape the thinking and acting of the individuals engaged in the act of reading and presents new interpretations of major Enlightenment texts by Montesquieu Rousseau and Diderot Reviewing Political Criticism Elisabeth K. Criticism examines the rise of the review form of journal publication from the early eighteenth to the early twenty first centuries The review belongs to a long tradition of written political criticism that first advised then revised and with the increased confidence afforded to civil society by the rise of market capitalism subsequently challenged and even transformed the state s view on what and how it governed Chaves investigates the crucial nexus of intellectual debate with political judgment over this time and highlights the review s central role in upholding this connection Focusing upon critical moments that required the exercise of political judgment the book explains this journal form as a means of political practice one that essentially re views the state s view of how society should be ordered To understand critical activity one must reflect on where this activity takes place on the institutions of criticism that sustain it Referred to by some as the natural habitat of intellectuals journals as the institutionalized sites of theoretical discourse are often overlooked This groundbreaking book offers a concentrated critique of the review form of journal publication as a medium for political thought and action as a decisive site for political judgment by the state s conservers and critics *Historical Dictionary of the Enlightenment*

Anoush Fraser Terjanian,2013 This book uncovers the ambivalence towards commerce in eighteenth century France questioning the assumption that commerce was widely celebrated in the era of Adam Smith **Living the Enlightenment** Margaret C. Jacob,1991-12-26 Long recognized as more than the writings of a dozen or so philosophes the Enlightenment created a new secular culture populated by the literate and the affluent Enamoured of British institutions Continental Europeans turned to the imported masonic lodges and found in them a new forum that was constitutionally

constructed and logically egalitarian Originating in the Middle Ages when stone masons joined together to preserve their professional secrets and to protect their wages the English and Scottish lodges had by the eighteenth century discarded their guild origins and become an international phenomenon that gave men and eventually some women a place to vote speak discuss and debate Margaret Jacob argues that the hundreds of masonic lodges founded in eighteenth century Europe were among the most important enclaves in which modern civil society was formed In France the Netherlands Belgium and Britain men and women freemasons sought to create a moral and social order based upon reason and virtue and dedicated to the principles of liberty and equality A forum where philosophers met with men of commerce government and the professions the masonic lodge created new forms of self government in microcosm complete with constitutions and laws elections and representatives This is the first comprehensive history of Enlightenment freemasonry from the roots of the society s political philosophy and evolution in seventeenth century England and Scotland to the French Revolution Based on never before used archival sources it will appeal to anyone interested in the birth of modernity in Europe or in the cultural milieu of the European Enlightenment *A Conceptual Guide to the Political Present* Khristina Hamilton Haddad,2003 Proceedings of the Second International Conference on Argumentation International Society for the Study of Argumentation,1991 *Bodies of Enlightenment* Dianah Leigh Jackson,1999 Epistolary fictions in the Republic of Letters Elizabeth Heckendorn Cook,1990 *Intellectuals and Public Life* Leon Fink,Stephen T. Aksan, 2004 *Eighteenth-Century Women and the Arts* Frederick M. Keener, Susan E. Lorsch, 1988-11-22 A major task confronting today's scholars is the reclamation from near oblivion of a multitude of works of art literature music scholarship and other creative enterprises by eighteenth century women This fascinating collection provides a multifaceted approach to understanding the roles played by women as both creators of and subjects within works of art in the eighteenth century A series of initial essays examines the biographical and historical conditions in which women of the times lived and worked Some essays explore the attitudes of women themselves and how they perceived their roles as well as their expectations expressed by male authors Other essays focus on women's contributions to particular arts notably poetry the novel music and painting A final section attends to research itself reporting first on collaborative efforts to identify individual eighteenth century women authors and discover trends in their writing In addition an alternative to the traditional scholarly methods course is provided in an example of the original research directed toward the rediscovery and understanding of the texts of Elizabeth Griffith This entertaining collection will foster new appreciation for the presence of women in the arts of the eighteenth century An important contribution to women's studies this volume is sure to be of special interest to students and scholars alike *Women and Medicine in the French Enlightenment* Lindsay Blake Wilson, 1993 In *Women and Medicine in the French Enlightenment* Lindsay Wilson takes a new approach to the social history of medicine by focusing on the key role that women played as both providers and recipients of health care during the Ancien Regime Wilson pays special attention to three medical controversies involving *maladies des femmes* in eighteenth century France the miraculous cures claimed by the Convulsionaries of St Medard the uncertainty over the maximum length of pregnancy and its implications for the legitimacy of heirs and the debate over the medical effectiveness of mesmerism Wilson's analysis of these debates reveals how social and political concerns affected the medical community's efforts to establish an enlightened science of medicine which would in turn legitimize its own authority But because the issues of legitimacy hierarchy and authority raised by the medical causes celebres resonated so deeply throughout French society debate extended far beyond medical circles to an increasingly engaged public Such debate reflected a significant shift in the center of politics from the institutions of court academy and parlement to journals theaters and the streets Wilson's description of these debates provides insight into the forces that were transforming the family the church corporate society and the state on the eve of the Revolution She argues for a re assessment of a period that has been all too easily categorized as an age of triumph either for enlightenment or for repression Her work also offers concrete examples of the ways in which sexual symbolism can be employed to maintain social order or promote change Based on medical treatises medical topographies official reports judicial documents physicians
