## **Critique Of Marcuse:**

*Critique of Marcuse* Paul Mattick, 1972      **On Marcuse** Douglas Kellner, Tyson E. Lewis, Clayton Pierce, 2008-01-01

Herbert Marcuse was one of the most important and renowned philosophers of the 20th century. His thought and his involvement in global student movements played a decisive role in transforming the political landscape of the 60s and 70s in the United States. For many, he is remembered as the father of the so-called New Left, a figure who represented theoretical clarity through the fog of war, counterrevolution, and the repression of freedom in advanced industrial society. Yet how did such an influential and powerful thinker interpret the role of education during the turbulent period in which he lived?

*On Marcuse: Critique, Liberation, and Reschooling in the Radical Pedagogy of Herbert Marcuse* seeks to offer groundbreaking answers to this question. Despite his well-known relationship with radical student activism, very little has been written on Marcuse's educational philosophy or its connection with his larger critical theory. Drawing on never-before-published archival materials, including lectures dating from 1968-1975, this volume presents a definitive overview of Marcuse's educational legacy and its relevance for the contemporary moment.

*On Marcuse* systematically lays out how Marcuse continues to be an important theorist for understanding themes such as educational standardization, critical and dialectical thought, democratic schooling, and the distinction between schooling for social needs and schooling for liberation and health. By situating Marcuse's dialectical analysis of the progressive and conservative trends in schooling within an overall critique of one-dimensional society, this volume demonstrates the importance of the theme of education for Marcuse's overall critical theory and political project. Critical theorists of education, Marcuse scholars, educators, and students will be struck by the unmistakable accuracy of Marcuse's diagnosis of education in one-dimensional society and his challenges for a democratic reconstruction of education. Hence, *On Marcuse* provides us with not only timely theoretical tools and concrete pedagogical strategies for combating educational sickness caused by one-dimensional society but also hope in the revolutionary potentials of reschooling.

This book engages the critical theory of political philosopher Herbert Marcuse to imagine spaces of resistance and liberation from the repressive forces of late capitalism. Marcuse, an influential counterculture voice in the 1960s, highlighted the smooth democratic unfreedom of postwar capitalism, a critique that is well adapted to the current context. The compilation begins with a previously unpublished lecture delivered by Marcuse in 1966, addressing the inadequacy of philosophy in its current form, arguing how it may be a force for liberation and social change. This lecture provides a theoretical mandate for the volume's original contributions from international scholars, engaging how topics such as higher education, aesthetics, and political organization can contribute to the project of building a critical rationality for a qualitatively better world, offering an alternative to the bleak landscape of neoliberalism. The essays in this volume, as a whole, engage the current context with an urgency appropriate to the problems facing an encroaching authoritarianism in political

society with an interdisciplinary lens that speaks to the complexity of the problems facing modern society The chapters originally published as a special issue in *New Political Science* *Herbert Marcuse* John Abromeit, W.
