Roman, 1991 **Approach to Alcohol** Alcohol Research and Educational Council (Vancouver, B.C.), 1957* **The American Experience with Alcohol** G.M. Ames, L.A. Bennett, 2013-11-11 This volume is an important contribution to our understanding of culture and alcohol in the United States Its appearance is also a milestone in the history of alcohol studies in American anthropology Over the last six years the volume s editors initially along with Miriam Rodin have served as the coorganizers of the Alcohol and Drug Study Group of the American Anthropological Association AAA In this capacity they have organized sessions at the AAA and other meetings greatly strengthened the research network with a regular and informative newsletter and painstakingly promoted the publication of anthropological work on alcohol and drugs Appearing just as the responsibility for the Study Group is passed on to others this book is a fitting emblem of the care and energy with which its editors have built an institutional nexus for alcohol and drug anthropology in North America The contents of this volume offer a uniquely wide sampling of the diversity of cultural patterns that make up the American experience with alcohol The collective portrait the editors have assembled extends in several dimensions through time and history across such social differentiations as gender age grade and social class and through such major social institutions as the church and the family Clearly the dominant dimension of variation in the material that follows however is ethnicity The book offers us a sampler of unprecedented richness of the different experiences with alcohol of American ethnoreligious groups Constructive Drinking Mary Douglas, 2013-10-16 First published in 1987 Constructive Drinking is a series of original case studies organized into three sections based on three major functions of drinking The three constructive functions are that drinking has a real social role in everyday life that drinking can be used to construct an ideal world and that drinking is a significant economic activity The case studies deal with a variety of exotic drinks **Drinking Occasions** Dwight B. Heath, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **Alcohol and Culture** Thomas Babor, 1986 **Alcohol** Janet Chrzan, 2013 From the publisher The purpose of this book is to provide a critical examination of human use of alcohol across cultures and through time thereby providing a framework for undergraduate students to self consciously examine their beliefs about and use of alcohol Almost all books written about alcohol for college students have a problems perspective either clinically

alcohol as a drug or societally as deviance or a social problem Many students have problems responding to these approaches Understanding human use of alcohol anthropologically is a refreshingly different and effective method of harm reduction which can be used by instructors to teach students how to reduce potential damage to themselves and others while at the same time conveying the anthropological imagination

Drinking Igor de Garine,2001-12-01 Over the last decades quite a few studies have been devoted to drinking Most of these were concerned with alcohol and written by social anthropologists This book presents multidisciplinary aspects of the ingestion of liquids at large addressing many of the overt and covert meanings of drinking from satisfying biological needs to communicating with humans and the hereafter attempting to reach a differential emotional state or seeking good health and longevity through the ingestion of appropriate beverages It includes papers from both biological and social scientists and covers a fair range of societies from rural and urban environments and in continents and countries ranging from Europe Africa and Latin America to Malaysia and the Pacific
