Northern Arts Arnold Weinstein, 2021-12-07 Northern Arts is a magnificent and provocative exploration of Scandinavian literature and art. With intellectual power and deep emotional insights, writer and critic Arnold Weinstein guides us through the most startling works created by the writers and artists of Scandinavia over the past two centuries. Here, readers will gain new perspectives on canonical giants such as Søren Kierkegaard, Henrik Ibsen, August Strindberg, Edvard Munch, Knut Hamsun, and Ingmar Bergman. Readers will also encounter popular favorites like children's writer Astrid Lindgren and come to know the work of lesser-known masters such as the novelist Tarjei Vesaas and the painters Ernst Josephson and Lena Cronqvist. Weinstein uses the concept of breakthrough boundary-smashing restlessness and the exploding of traditional forms and values as a thematic lens through which to expose the roiling energies and violence that course through Scandinavian literature and art. Defying preconceptions of Scandinavian culture as depressive or brooding, Weinstein invites us to imagine anew this transformative and innovative tradition of art that continually challenges ideas about the sacred and the profane, family and marriage, children, patriarchy, and personal identity. Through these works, he brings us face-to-face with our most hidden selves and urges enriching our understanding of the emotions and forces that govern our lives. Northern Arts is the essential introduction to Scandinavian literature and art, one that illuminates the fierce beauty and breathtaking reach of these incomparable works.

In den Feuilletons wurde er unter anderem García Márquez des Nordens genannt. Die vorliegende Studie belegt, dass er nicht nur Geschichten entwirft, sondern dass er in all seinen Texten, ob in der Lyrik, Essayistik, Prosa oder Dramatik, vom Debut an Passagen der Sprachreflexion eingeflochten hat. reassess current critical assumptions Fundamental to this collection is the sense that literary texts are more than self enclosed verbal constructs In his introduction to the essays editor McGann examines how and why the concept of referentiality fell into disfavor with modern literary schools The antihistorical bias of the New Critics Structuralists and Deconstructionists he argues ultimately limit their critical vision For literature McGann stresses has various points of reference to a larger world of social interactions and historical influence only by recognizing and reconstructing that world can we mine the full meaning and communicative potential of a fictional work Union List of Artist Names: A-D James M.
