Crossing Borders Essays On The Political:

Crossing Borders Sir Bernard Crick, 2016-10-06 Bernard Crick's mastery of the political essay is matched by few if any modern political writers. This new collection demonstrates the wide range of his writing with characteristically bold argumentative and witty pieces on British identity, on the Northern Irish peace process, on New Labour, on Shaw Berlin Laski and Arendt, and on the present state of political writing. It will enlighten, provoke, and amuse readers keen to engage with political ideas and arguments current at the turn of the millennium.

Crossing Borders Bernard Crick, 2001 [Crossing Borders](#) Tapan Basu, Tasneem Shahnaaz, 2017-05-04 [Crossing Borders](#) is a gathering of twenty original interdisciplinary essays on the paradigm of borders in African American literature, multi-ethnic U.S. studies, and South Asian studies. These essays by established and mid-career scholars from around the globe employ a variety of approaches to the idea of border crossings and represent important contributions to the discourses on modernity, diasporic mobility, populism, migration, exile, sub-nation, trans-nation, as well as the formation of nationalities, communities, and identities. Borders in these contexts signify social and national inequities and hierarchies and also the ways to challenge and transgress entrenched barriers sanctioned by habit, custom, and law. The volume also honors and celebrates the life and work of Amritjit Singh as a teacher, mentor, author, scholar, and editor over half a century.

Doing a Phenomenology of Political Life, vol. 1 Andreea Smaranda Aldea, 2025 [Reading\(s\) / across / Borders](#), 2020-03-23 This collection emphasizes a cross-disciplinary approach to the relevance of borders and bordering as a spatial paradigm in Anglophone studies. It sets out to provide a critical counter-narrative to the 1990s globalization argument of a borderless world by insisting on the significant roles borders play. The essays range in subject matter from geography, history, British and American literature, to painting and Reggae music and map out different conceptualisations of the border, place, line, process, contact zones, etc. The volume's cross-border narrative serves as a point of communication between the local and the global, between Europe and America, between different literary and artistic genres, thus challenging the divides of geography and literature between real territorial borders and their fictional counterparts.

Migration Governance across Regions Ana Margheritis,2015-12-22 Migration policies are rarely effective Examples of unintended and undesirable outcomes abound In Latin America very little is known about the impact and long term sustainability of state policies towards emigrants Following a world wide trend Ecuador Uruguay Mexico Argentina and Brazil have developed new institutions and discourses to strengthen links assist protect and enfranchise migrants and capture their resources As an adaptation of governmental techniques to global realities these policies redefine the contours of polities nations and citizenship giving place to a new form of transnational governance Building upon field research done in these five states and two receiving countries in the last decade Ana Margheritis explains the timing motivations characteristics and implications of emigration policies implemented by each country as well as the emergence of a distinctive regional consensus around a post neoliberal approach to national development and citizenship construction Margheritis argues that these outreach efforts resemble courting practices Courting is a deliberate expression of the ambivalent still incipient and open ended relationship between states and diasporas which is not exempt of conflict detours and setbacks For various reasons state diaspora relations are not unfolding into stable and fruitful partnerships yet Thus she makes diaspora engagement problematic and

Holub,1992 Throughout the eighties I set out to investigate various aspects of the transformations and difficulties of border crossings in numerous essays and reviews I have gathered reworked and updated the results of my rather unsystematic procedures in this volume What I found in the most general terms is that what matters most in the appropriation of a theory from a foreign country is how it fits into an already established constellation in the importing country From Preface by the Author *Contemporary Authors New Revision Series* Tracey Watson,2005-09 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers **Justice Among Nations** Thomas L.
