Crossing Boundaries:

Crossing Boundaries in Researching, Understanding, and Improving Language Education Dongbo Zhang, Ryan T. Miller, 2023-02-08 This volume brings together original papers from language education scholars from around the world to explore exemplify and discuss the multiplicity of boundary crossing in language education It emphasizes the potential of boundary crossing for expansive learning and aims to generate new insights through boundary crossing into the complexity of language education and approaches to innovative practices This volume also underscores the important role of expert boundary crossers In particular it aims to honor G Richard Tucker Paul Mellon University Professor Emeritus of Applied Linguistics at Carnegie Mellon University celebrating his distinguished scholarship on language education and paying tribute to the inspiration and mentorship he has given to the contributors of this volume to cross boundaries academically and professionally This volume is organized into four sections namely language learning and development teachers and instructional processes program innovation implementation and evaluation and language in education policy and planning These sections or themes which are necessarily cross cutting also represent the major areas of scholarship where Prof Tucker has made distinguished contributions for over half a century

Crossing Boundaries for Collaboration Stephen G. Perz, 2016-08-30 Many societal challenges defy simple solutions within the grasp of one academic discipline a single type of organization or a country acting alone Such wicked problems require collaboration that crosses social political or geographic boundaries Collaboration across boundaries is increasingly seen as a necessary way forward whether for the cases of education health care community policing or international trade At the same time collaboration poses its own challenges and what is more so too does crossing boundaries Regardless of the skill set required to achieve a particular goal collaboration and crossing boundaries make their own demands Crossing Boundaries for Collaboration brings together multiple bodies of work on collaboration across different kinds of boundaries It highlights the promise of collaborative advantage while featuring detailed discussions of the challenges involved It provides a framework for thinking about collaboration in terms of a suite of issues each with particular tasks and challenges that can be addressed via strategic practices This book also features an extensive discussion of the importance of boundaries for collaboration which recognizes that while crossing boundaries complicates collaboration spanning divides can also magnify collaborative advantage To illustrate the joys and travails of collaboration across boundaries this book takes up the case of conservation and development in the Amazon Well known for its biological resources the basin is changing rapidly and Amazonian societies increasingly demand inclusive approaches to conservation and development This book draws on firsthand experiences from direct participation in several complicated conservation and development projects that spanned disciplinary organizational and national boundaries While the projects permitted achievement of goals beyond the reach of individual partners the challenges along the way were daunting This book focuses on issues of particular salience when collaborating across

boundaries politics and inequality uncertainty and surprise and collaboration and the self It also underscores the strategic importance of investing in collaborative practice and the experience of crossing boundaries even if an initial effort fails In light of growing need to address complex problems this book provides a clarion call to collaborate across boundaries recognizing the difficulties in order to achieve the advantages

History of Intellectual Culture 4/2025 Charlotte A. Lerg,Johan Östling,Jana Weiß,Victoria Van Orden Martínez,Christine Schmidt,Ewa Koźmińska-Frejłak,2025-10-06 The fourth issue of the yearbook History of Intellectual Culture HIC features a thematic section on the production of knowledge related to the Holocaust The contributions focus on the circulation of knowledge via letters and other forms of written communication within and among survivor historical commissions after the Second World War with an emphasis on the interplay of gender and other differences Although more women than men were involved in these efforts women typically held subordinate roles to men and have largely been invisible in the historiography of these endeavors This thematic section addresses this lacuna by exploring aspects of the unseen labor behind these documentation efforts that remain underexplored and marginalized in studies on the production circulation and history of knowledge as well as of intellectual culture

The Theology of Ethnocultural Empathic Turn Branko Sekulic,2024-10-15 The Theology of Ethnocultural Empathic Turn uncovers the roots of present day ethnoreligious conflict proposing an ethnocultural empathy turn inspired by ethnocultural empathy as a branch of social psychology and the example of Jesus turn in Matthew 15 21 28 and advocating for liberation from the deadly deviation of Christianity s message

The Third Chapter Sara Lawrence-Lightfoot,2009-01-06 Renowned sociologist Dr Lawrence Lightfoot challenges the still prevailing and anachronistic images of aging by documenting and revealing the ways in which the years between 50 and 75 the third chapter may in fact be the most transformative and generative time in a person s life

Women Crossing Boundaries Oliva Espin,2013-08-21 First published in 1999 This book looks at the consequences of border crossings and immigration on women and their culture and sexual orientations Espin demonstrates how deeply sexuality language and gender affected by this large life change with the aid of 43 biographies of adolescent and adult women

Reimagining the Future Public Service Workforce Helen Dickinson,Catherine Needham,Catherine Mangan,Helen Sullivan,2018-09-03 This book investigates the professional needs and training requirements of an ever changing public service workforce in Australia and the United Kingdom It explores the nature of future roles the types of skills and competencies that will be required and how organisations might recruit train and develop public servants for these roles Leading international research practitioners make recommendations for how local organisations can equip future public servants with the skills and professional capacities for these shifting professional demands and the skillsets they will require Drawing on ideas that have been developed in the Australian and UK context the book delves into the major themes involved in re imagining the public service workforce and the various forms of capacities

and capabilities that this entails It then explores delivery of this future vision and its implications in terms of development recruitment and strategy Crossing Boundaries Brian D. Behnken, Simon Wendt, 2013-06-27 Crossing Boundaries Ethnicity Race and National Belonging in a Transnational World explores ethnic and racial nationalism within a transnational and transcultural framework in the long twentieth century late nineteenth to early twenty first century The contributors to this volume examine how national solidarity and identity with their vast array of ideological political intellectual social and ethno racial qualities crossed juridical territorial and cultural boundaries to become transnational how they altered the ethnic and racial visions of nation states throughout the twentieth century and how they ultimately influenced conceptions of national belonging across the globe Human beings live in an increasingly interconnected transnational global world National economies are linked worldwide information can be transmitted around the world in seconds and borders are more transparent and fluid In this process of transnational expansion the very definition of what constitutes a nation and nationalism in many parts of the world has been expanded to include individuals from different countries and more importantly members of ethno racial communities But crossing boundaries is not a new phenomenon In fact transnationalism has a long and sordid history that has not been fully appreciated Scholars and laypeople interested in national development ethnic nationalism as well as world history will find Crossing Boundaries indispensable Crossing Boundaries George William Barnard, Jeffrey John Kripal, 2002 The contemporary study of religion has witnessed a consistent interest in and concern about the relationship between the unitive ascetic and ecstatic tendencies of mystical traditions and the more mundane but ethically pressing realms of society custom and civilized life The present volume explores such issues anew through a series of original essays on the mystical traditions themselves from Kabbalah to Chinese religion and on some of the most pressing theoretical issues and theorists from Bergson to Schuon of the twentieth century study of religion

Goussinsky,2008-02-21 We yearn to experience the idealized love depicted in so many novels movies poems and popular songs Ironically it is the idealization of love that arms it with its destructive power Popular media consistently remind us that love is all we need but statistics concerning the rate of depression and suicides after divorce or romantic break up remind us what might happened if all that we need is taken away This book is about our ideals of love our experiences of love the actual disparity between the two and the manners of coping with this disparity A major study case of the book concerns men who have murdered their wives or partners allegedly out of love It is estimated that over 30% of all female murder victims in the United States die at the hands of a former or present spouse or boyfriend How can murdering a loved one be associated with the assumed moral and altruistic love Not only is love intrinsically ambivalent but it can also give rise to dangerous consequences Some of the worst evils have been committed in the name of love as in the name of God A unique collaboration between a leading philosopher in the field of emotions and a social scientist In the Name of Love presents fascinating insights into romantic love and its future in modern society
