## **Atheism And Alienation:**

**Atheism and Alienation** Patrick Masterson, 1971      **Atheism and Alienation** Patrick Masterson, 1973      The Sense of Creation Patrick Masterson, 2008 What kind of experience might help to confirm and make sense of the puzzling belief in divine creation so central to the main monotheistic religions Anselm and Aquinas developed a philosophical understanding of Creation as an asymmetrical relationship between the world and God i e that the world is really related to God in a relationship of total dependence but God is in no way really related to or modified by this created world This idea of an asymmetrical relationship is the key concept unifying all aspects of this book which discusses the three main inter related questions in a philosophical discussion about God the question of meaning the question of existence and the question of co existence The book explores various ciphers of this asymmetrical relationship in our pre philosophical lived experience These are experiences such as that of the relationship between our knowledge and what we know or our sense of obligation to our vulnerable neighbour It argues that deciphering such experiences helps to make sense of the asymmetrical relation of creation and that it in turn makes sense of them Masterson argues further that this idea of asymmetrical relationship provides insight into the main questions of philosophy of religion and is an illuminating source of critical dialogue with contemporary Anglo American and Phenomenological approaches in philosophy of religion      **Alienation, Atheism, and the Religious Crisis** Thomas F. O'Dea, 1969      *The Theology of the Cross and Marx's Anthropology* Winston D. Persaud, 2005-09-13 This is a fascinating major articulation of a contemporary theology of the cross in response to the soteriological challenge of Karl Marx s anthropological Weltanschauung The author focuses primarily on the much neglected Early Writings 1844 Manuscripts in which Marx himself provides a necessary humanistic critique of official Marxism The theology of the cross which the author articulates is centered in Luther s theologia crucis Moltmann s crucified God and Latin American liberation theology s divine identification and solidarity with the poor and oppressed Specifically the context of the work is the Caribbean and the Americas      **The Twilight of Atheism** Alister McGrath, 2006-02-21 In this bold and provocative new book the author of *In the Beginning* and *The Reenchantment of Nature* challenges the widely held assumption that the world is becoming more secular and demonstrates why atheism cannot provide the moral and intellectual guidance essential for coping with the complexities of modern life Atheism is one of the most important movements in modern Western culture For the last two hundred years it seemed to be on the verge of eliminating religion as an outmoded and dangerous superstition Recent years however have witnessed the decline of disbelief and a rise in religious devotion throughout the world In *THE TWILIGHT OF ATHEISM* the distinguished historian and theologian Alister McGrath examines what went wrong with the atheist dream and explains why religion and faith are destined to play a central role in the twenty first century A former atheist who is now one of Christianity s foremost scholars McGrath traces the history of atheism from its emergence in eighteenth century Europe as a revolutionary worldview that offered liberation from the

rigidity of traditional religion and the oppression of tyrannical monarchs to its golden age in the first half of the twentieth century Blending thoughtful authoritative historical analysis with incisive portraits of such leading and influential atheists as Sigmund Freud and Richard Dawkins McGrath exposes the flaws at the heart of atheism and argues that the renewal of faith is a natural inevitable and necessary response to its failures THE TWILIGHT OF ATHEISM will unsettle believers and nonbelievers alike A powerful rebuttal of the philosophy that for better and for worse has exerted tremendous influence on Western history it carries major implications for the future of both religion and unbelief in our society *The Dialectic of Counter-Enlightenment* Christian Thorne,2009 Thorne confronts the history and enduring legacy of anti foundationalist thought At its heart this book is a plea not to take doubt at its word a plea for the return of a vanished philosophical intelligence and for the retirement of an anti Enlightenment thinking that commits the very crimes that it lays at Enlightenment s door

**The Preobrazhensky Papers** Mikhail M. Gorinov,2014-03-10 Historians generally recognise E A Preobrazhensky as the most famous Soviet economist of the 1920s English language readers know him best as author of The New Economics and co author with N I Bukharin of The ABC of Communism The documents in this volume many newly discovered and almost all translated into English for the first time reveal a Preobrazhensky previously unknown whose interests ranged far beyond economics to include not only party debates and issues affecting the lives of workers and peasants but also philosophy world events and Russian history culture and politics Including moments of triumph and tragedy they tell an intimate story of political awakening and of commitment to socialist revolution as the path to human dignity
