Atlas Of Multiple Sclerosis

Sivakumar Joghi Thatha Gowder

Atlas Of Multiple Sclerosis:

Atlas Tarun Dua, World Health Organization, 2008 Multiple sclerosis MS is one of the most common neurological disorders and causes of disability in young adults. Although some people with MS experience little disability during their lifetime, up to 60% are no longer fully ambulatory 20 years after onset, with major implications for their quality of life and the financial cost to society. This new publication from the World Health Organization and the Multiple Sclerosis International Federation (MSIF) presents evidence on the global epidemiology of multiple sclerosis and the resources to diagnose, treat, rehabilitate, support, and provide services to people with MS. The **Atlas MS** summarizes information from 112 countries representing 88% of the global population, thus can be considered as the leading global assessment on multiple sclerosis. The results of the survey reveal a lack of services and resources allocated to the care of people with MS. The situation is of particular concern in most low and middle income countries. Critical Evaluation of Vitamin D Sivakumar Joghi Thatha Gowder, 2017-04-26 Vitamin D, a fat-soluble vitamin also called as sunshine vitamin, is derived mostly from sun exposure and food. For normal activation, it has to undergo two hydroxylation reactions. Vitamin D affects more than 2000 genes in the body. Serum level of 25-OH-D is an ideal indicator of vitamin D status in our body. Vitamin D deficiency leads to various diseases. On a therapeutic point of view, vitamin D helps to treat many diseases. The book **A Critical Evaluation of Vitamin D: Clinical Overview** targets the principles, mechanisms, and clinical significance of vitamin D. This book covers four sections: Vitamin D in Cardiovascular and Renal Diseases; Vitamin D in Age and Neurological Diseases; Vitamin D and Cancer; and Therapeutic Measurements of Vitamin D. Each of these sections is interwoven with the theoretical aspects and experimental techniques of basic and clinical sciences.
