Crisis Escalation War:

Crisis, Escalation, War Ole R. Holsti, 1972 **Back to the brink** Tim Sweijts, Artur Ursanov, Rik Rutten, Stephan de Spiegeleire, Frank Bekkers, Scott Michael Ward, Willem Theo Oosterveld, Clarissa Skinner, 2016-03-10 **Major Powers, Crisis Escalation, and War** Vesna Danilovic, 1995 **Crisis and War** Patrick James, 1988-03-01 His analysis suggests that certain explanations have not been sufficiently considered in previous works For example prior domestic strife can be linked to the escalation of foreign conflict in an impressive number of cases a discovery which runs counter to the consensus which has emerged over the last two decades among political scientists Prior research on causes of war has often lacked rigour James has tried to remedy this through a long term comparative approach to the subject matter While Crisis and War follows the tradition of aggregate research statistical analysis is always connected to particular events through discussions of situations and leaders in both diplomatic history and contemporary world politics James comprehensive and original approach to past theories both clarifies and critiques them *Crisis Diplomacy* James L. Richardson, 1994-09-29 Although much has been written on international crises the literature suffers from a lack of historical depth and a proliferation of competing theoretical frameworks Through case studies drawing on the rich historical experience of crisis diplomacy James Richardson offers an integrated analysis based on a critical assessment of the main theoretical approaches Due weight is given to systemic and structural factors but also to the specific historical factors of each case and to theories which do not presuppose rationality as well as those which do Crisis diplomacy the major political choices made by decision makers and their strategies judgments and misjudgments is found to play a crucial role in each of the case studies This broad historical inquiry is especially timely when the ending of the Cold War has removed the settled parameters within which the superpowers conducted their crisis diplomacy Understanding the Impact of Emotional Stress on Crisis Decision Making Noel Allan Sawatzky, 2022-01-03 Motivational models are critical to understanding crisis decision making because leaders and their advisors are emotionally involved intent on reducing stress and motivated to find ways of advancing their interests while minimizing the risk of war The principal theoretical work on the subject is Irving Janis and Leon Mann s classic study of decision making published in 1977 While useful the book has a significant flaw Janis and Mann theorize that policy maker stress during crisis is derived from decision deliberation leading to a circular approach This book solves the identified problem by addressing circularity between the rise of psychological stress decision deliberation and dysfunctional behavior with an independent measure of decision conditions using cognitive complexity With an effective independent measure of stress the key contribution of this volume is a reformulation of Janis and Mann s model to render the construct more rigorous and empirically useful to the present day study of crisis decision making **Crises in World Politics** Michael Brecher, 2013-10-22 Crises in World Politics Theory Reality presents the study of international conflict This book discusses the danger of crises to global and regional stability Organized into eight chapters this book begins with an overview of the

key concepts of the inquiry conflict crisis and war This text then explores the four phases of an interstate crisis namely onset escalation de escalation and impact Other chapters consider the unified model of crisis which is applied to the Gulf Crisis War of 1990 91 This book discusses as well the most intense military security crisis in the 20th century the dynamics of the process and how the actors coped with their crisis The final chapter summarizes the primary findings about models and concepts and about each phase and its corresponding period at the actor level namely pre crisis crisis end crisis and post crisis This book is a valuable resource for historians policy makers and social scientists **What Do We Know about War?** John A. Vasquez,2000-09-26 What Do We Know about War reviews the causes of war and the conditions of peace Drawing analyses from the thirty five year history of this discipline leading researchers explore the roles played by alliances territory arms races interstate rivalries capability and crisis bargaining in increasing the probability of war They emphasize international norms and the recent finding that democratic states do not fight each other as factors that promote peace This book offers an accessible and up to date overview of current knowledge and an agenda for future research *The Dynamics of Aggression* Michael Potegal,John F. Knutson,1994 First Published in 1994 Routledge is an imprint of Taylor Francis an informa company India and the China Crisis Steven A. Hoffmann,2024-06-12 The earliest accounts of the Sino Indian boundary dispute cast India as the victim of Chinese betrayal and expansionism but a more favorable image of China vis a vis India has appeared since the 1970s Since then China has been portrayed as the victim of India s self righteous intransigence with the 1962 India China war occurring because China was provoked into practicing a justifiable form of realpolitik These two seemingly irreconcilable academic schools of thought still exist In this case study of India s decision making between the years of 1959 and 1963 the critical first years of its border conflict with China Steven A Hoffmann takes an important step in reconciling the conflicting views of the crisis and of the ascribed reasons for the war that ensued in 1962 Drawing on interviews with Indian officials military officers and political leaders and on memoirs and other sources gathered during concentrated research in India England and North America between 1983 and 1986 the author provides previously unknown material on the perceptions and realities of Indian decision making A model for international crisis behavior as proposed by Michael Brecher is used to help establish a balanced treatment of information and offer insights into such questions as why India and China both failed to understand one another s frontier psychologies and strategies and why the Nehru government did not succeed in managing the conflict This richly detailed and carefully researched approach is invaluable in this time when India and China are once again exploring ways to establish a solid relationship This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 Crisis Escalation and War Prevention. What We Can Learn from the Events in the First World War Hatam Ansari,2021 **Crises**

in the Twentieth Century: Crisis, conflict and instability Michael Brecher, Jonathan Wilkenfeld, Sheila Moser, 1988
Decision and Interaction in Crisis Ben Mor, 1993-07-30 This book provides an analysis of strategic behavior in international crises A new approach is used to narrow the gap between psychological and game theoretical studies of crisis Includes an in depth case study of the 1967 Middle East crisis *Leaders and Crisis* Robert H. Kupperman, Andrew C. Goldberg, 1987 *Crisis and Arms Control* Anthony J. Wiener, Herman Kahn, 1962 *Proceedings of the ... Pugwash Conference on Science and World Affairs*, 1988 **Management of Third World Crises in Adverse Partnership** Imtiaz H. Bokhari, 1997 Imtiaz Bokhari details the world response to three regional conflicts the 1973 Arab Israeli war the 1971 Indo Pak crisis and the Iran Iraq war and analyzes the dynamics of the concomitant international crisis management There exists a greater need for crisis management the author argues in a international system in which the disintegration of the old superpower competition and restraints has changed the rules of the game to the apparent advantage of the stronger regional powers *Nuclear Demonstration Strikes and Superpower Crisis Behavior* Paula Marie Fleming, 1990 *The Scientific Study of Peace and War* Marie T. Henahan, 1992 *Communication and Interaction in Global Politics* International Political Science Association, IPSA Research Committee on Global Communication, 1987-02 *Communication and Interaction in Global Politics* presents the state of the art in quantitative research on the properties of communication and interaction in global political behaviour In the first section various models of global interaction are developed Part Two focuses on international relations and Part Three presents various data based approaches to the study of international integration
