Livingston V. Swanquist ,1970 Crisis in the Primary Classroom Maurice Galton,2021-12-30 First published in 1995 Crisis in the Primary Classroom redefines the crisis plaguing primary classrooms by challenging many of the educational and political orthodoxies of the nineties The book is set during a particular period in the nineties when primary education was under attack from the Government and sections of the media with accusations that reading standards had fallen the National Curriculum was not being taught well and training colleges had failed to produce sufficient teachers of quality In response to these concerns the Government commissioned a report which presented a series of solutions

Maurice Galton argues that the report failed to identify the root causes of the problems facing primary schools. He examines critically whether the National Curriculum was necessary and whether teaching methods and classroom organization really needed to be changed radically. He also addresses the issue of quality among teachers, suggesting ways in which this might be developed. *Crisis in the Primary Classroom* deserves to be read by all concerned with the planning, administration and practice of primary education. Teachers will be encouraged by the message that methods found to be successful in the past must be accommodated in new patterns of organization and classroom practice.

Practicum and Internship John C. Boylan, Judith Scott, Christin M. Jungers, 2013-07-04. Completely revised and updated, the fourth edition of *Practicum and Internship* carries on the tradition of the previous editions as a popular and highly useful textbook and resource guide. It continues to be a comprehensive resource for students and their supervisors throughout the counseling and psychotherapy process, providing thorough coverage of both the theoretical and practical aspects of the practicum and internship process. This text guides students through the important pre-professional training experiences, from the selection of an appropriate practicum site to the final evaluation of the internship. Organizing the content into four sections for clarity and ease of use, the authors discuss all the relevant information regarding the practicum experience, preparation for the internship, the internship experience and evaluation, and important ethical and legal considerations. New in this edition are a listing and description of the various counseling theories and techniques, a section on crisis intervention and response, detailed guidelines for school mental health consultation, and forms for evaluating performance, cognitive and consulting skills. Forms are provided at the end of the book for the student's use in site selection, assessment, client treatment, and performance feedback and evaluation. These forms are also included in electronic format on an accompanying CD to allow students to modify and reuse them.
