

# CRITICAL DEVELOPMENT THEORY: RESULTS AND PROSPECTS

RONALDO MUNCK\*

**ABSTRACT:** In the current conjuncture there is much talk about «the collapse of globalism» and a move «beyond the Washington Consensus» as the dominant global neo-liberal order enters a crisis of legitimacy. It is thus a good moment to (re)engage with the genealogy and current prospects for a critical development theory or, rather, theories. In the 1990s, capitalist triumphalism saw the neoliberal approach to development in unchecked full flow and it seemed that «there was no alternative» as the gurus of neoliberalism preached. Now we are presented with an opportunity to offer development alternatives that would have real popular purchase. Critical theory's embrace of a «post-development» which read the whole development enterprise as illusion left no viable challengers to orthodox development theory in the field. While state-led development in the traditional mode, including its radical variant, had little purchase in an increasingly internationalised world order, the issue of development as theory and practice to overcome poverty and inequality has not gone away as a vital global concern. The question today is whether a revitalised critical development theory can meet these challenges.

**KEYWORDS:** development, critical theory, dependency theory, post-development, neo-liberalism.

**RESUMEN:** En la actual coyuntura se ha hablado mucho sobre «el colapso del globalismo» y de ir «más allá del Consenso de Washington» a medida que el nuevo orden neoliberal dominante entra en una crisis de legitimidad. Por ende es un buen momento para (re)pensar la genealogía y la perspectiva actual de una teoría crítica del desarrollo, o más bien, de las teorías. En los años noventa, el triunfalismo capitalista consideraba al enfoque neoliberal del desarrollo como una corriente desbordada y que «no tenía ninguna alternativa» según predicaban los gurús del neoliberalismo. Ahora se presenta una oportunidad para proponer alternativas de desarrollo que pudieran tener una credibilidad popular real. La teoría crítica, de la mano del «posdesarrollo», que considera la empresa del desarrollo como una ilusión, no dejaba rivales viables en el campo frente a la teoría ortodoxa del desarrollo. Mientras que el desarrollo encabezado por el Estado en el modo tradicional, incluida su variante radical, tuvo escasa credibilidad en un orden mundial cada vez más internacionalizado, el tema del desarrollo como teoría y como práctica para superar la pobreza y la desigualdad no se ha agotado como preocupación global vital. La pregunta en la actualidad consiste en saber si una revitalizada teoría crítica del desarrollo puede enfrentar estos desafíos.

**PALABRAS CLAVE:** desarrollo, teoría crítica, teoría de la dependencia, post-desarrollo, neoliberalismo.

## **Critical Development Theory:**

*Critical Development Theory* Ronaldo Munck, Denis O'Hearn, 1999-03 In the late 20th century there has been a rethinking of the whole concept of development including a growing awareness of its gender cultural and environmental dimensions and the impact of globalization The contributors to this volume seek to extend these debates to a more fundamental level tackling such issues as the crisis of development as an intellectual and practical project the need for a break with development as a Eurocentric concept and the viability of alternative non Western forms of development The contributors aim to transcend critiques of development which simply engage in a blanket dismissal of the whole enterprise and instead offer ways of re engaging with reality that despite globalization is still a dimension of the late 20th century
