education programs and professional development settings are often reminded of the need to build curriculum using children's inquiry questions, passions, and interests, but generally this message is delivered only through telling lectures or showing examples from other people's classrooms. This book advances critical literacy by explaining and illustrating how teacher educators can do much more by creating opportunities for pre-service and in-service teachers to live critical literacies through experiencing firsthand what it is like to be a learner where the curriculum is built around teachers' own inquiry questions, passions, and interests.

Critical Literacy Practice Bogum Yoon, Rukhsar Sharif, 2015-08-17 This edited book shows how critical literacy can be applied in and outside the classroom setting. It shows educators how critical theory is applied in practice using studies in diverse K-16 settings, kindergarten through university contexts. By providing specific examples of critical literacy practice in the classroom and beyond, the book aims to help teachers, researchers, and teacher educators make clear connections between theory and practice in critical literacy.

Critical Literacy and Urban Youth Ernest Morrell, 2015-07-22 Critical Literacy and Urban Youth offers an interrogation of critical theory developed from the author's work with young people in classrooms, neighborhoods, and institutions of power. Through cases, an articulated process, and a theory of literacy education and social change, Morrell extends the conversation among literacy educators about what constitutes critical literacy while also examining implications for practice in secondary and postsecondary American educational contexts. This book is distinguished by its weaving together of theory and practice. Morrell begins by arguing for a broader definition of the critical in critical literacy, one that encapsulates the entire Western philosophical tradition as well as several important Othered traditions ranging from postcolonialism to the African American tradition. Next, he looks at four cases of critical literacy pedagogy with urban youth: teaching popular culture in a high school English classroom, conducting community-based critical research, engaging in cyber activism, and doing critical media literacy education. Lastly, he returns to theory, first considering two areas of critical literacy pedagogy that are still relatively unexplored: the importance of critical reading and writing in constituting and reconstituting the self, and critical writing that is not just about coming to a critical understanding of the world but that plays an explicit and self-referential role in changing the world. Morrell concludes by outlining a grounded theory of critical literacy pedagogy and considering its implications for literacy research, teacher education, classroom practice, and advocacy work for social change.

The Intersections of Critical Pedagogy, Critical Literacy, and Social Justice Katharine Covino, Cara Mulcahy, 2024-01-22 Critical literacy research has highlighted the complexities associated with integrating critical literacy theory with classroom practice, recognizing the intersection between critical literacy and culturally sustaining pedagogies, and the resistance faced by educators as they create spaces for courageous conversations, critical engagement with text, and progressive text creation. Although the complexities of moving from theory to practice are more understood than they previously were, how educators navigate the inherent tensions of fostering and sustaining a critical practice is less clear. This volume defines educator as a

PreK 12 classroom teacher or as a teacher educator whose work is predominantly associated with university based teacher education Their roles and responsibilities are diverse Through an unpacking of the curricula courses programs and professional learning spaces in which educators operate this edited volume seeks to answer these questions How do educators develop a critical practice of their own How do educators navigate areas of resistance How do educators sustain their practice in the face of resistance How do educators address concerns of parents colleagues administrators and stakeholders How do educators link social justice issues to critical literacy critical pedagogy
