Critical Thinking 5e:

Critical Thinking 5th edition Richard L Epstein, Michael Rooney, 2018-11-01 This fifth edition of *Critical Thinking* by the noted logician Richard L Epstein is practical, engaging, and easy to teach. Students enjoy and understand it because it is clear and has hundreds of examples using a cast of characters who reason as we do every day. More than 1,000 exercises lead students to be able to reason well in their courses and their lives. Essay writing lessons and visual writing lessons using the cast of characters teach students that first comes clear thinking and then comes clear writing. A complete and comprehensive Instructor's Manual makes the text easy to teach and grade. New to this edition: chapters on explanations and reasoning in the sciences; Over 1,000 examples and exercises from daily life; A dozen original writing lessons fully integrated with the text; Unique cartoon writing lessons help students apply critical thinking to non-verbal situations.

Approaches to Teaching, 5th Edition Gary D. Fenstermacher, Jonas F. Soltis, Matthew N. Sanger, 2015-04-18 This popular text continues using the format of the three approaches: The Executive, The Facilitator, and The Liberationist. For the Fifth Edition, the authors add four new case studies: Scripted Teaching, Accountability and Merit, What Is the Value of Caring Relationships, and School Funding. Using these and other realistic case studies, they explore the strengths and weaknesses of each approach so that teachers can critically assess their own philosophical positions on teaching. Teachers are urged to ask themselves such questions as: What is the main goal of teaching? What is the most important purpose of education? What do I expect my students to eventually become? Is the way I structure my teaching influenced by how I view my role and goals? This updated edition also adds a new section called Topics and Resources to encourage further inquiry into teaching. *Approaches to Teaching* is one of the five books in the highly regarded Teachers College Press THINKING ABOUT EDUCATION SERIES now in its Fifth Edition. All of the books in this series are designed to help pre- and in-service teachers bridge the gap between theory and practice. Gary D. Fenstermacher is Professor of Education at the University of Michigan, Ann Arbor; Jonas F. Soltis is William Heard Kilpatrick Professor Emeritus of Philosophy and Education at Teachers College, Columbia University; Matthew N. Sanger is Assistant Professor of Educational Foundations at Idaho State University.
