Critical Study Of The Tragedies Of Robert Garnier 1545 90:

A Critical Study of the Tragedies of Robert Garnier (1545-90) John Holyoake, 1987 Garnier is by common consent the greatest tragedian of the French Renaissance The core of this book consists of detailed critical commentaries on each of his seven tragedies The stress is placed on the individual qualities of each separate tragedy although some attention is given to the need to synthesize as well as to Garnier's characteristic qualities The introduction deals with possible approaches to sixteenth century tragedy in general while a preliminary chapter traces the historical development of tragedy before Garnier there are sections on imitation originality sources rhetoric and performance The author concludes that Garnier does not conform to norms as much as has been claimed and that it is misleading to divide his development so neatly into three phases

The Lily and the Thistle William Calin, 2014-01-01 In *The Lily and the Thistle* William Calin argues for a reconsideration of the French impact on medieval and renaissance Scottish literature Calin proposes that much of traditional medieval and early modern Scottish culture thought to be native to Scotland or primarily from England is in fact strikingly international and European By situating Scottish works in a broad intertextual context Calin reveals which French genres and modes were most popular in Scotland and why *The Lily and the Thistle* provides appraisals of medieval narrative texts in the high courtly mode equivalent to the French *dit amoureux* comic didactic and satirical texts and Scots romance Special attention is accorded to texts composed originally in French such as the Arthurian *Roman de Fergus* as well as to the lyrics of Mary Queen of Scots and little known writers from the French and Scottish canons By considering both medieval and renaissance works Calin is able to observe shifts in taste and French influence over the centuries [The Collected Works of Mary Sidney Herbert, Countess of Pembroke: Poems, translations, and correspondence](#) Mary Sidney Herbert Countess of Pembroke, 1998 Mary Sidney Herbert Countess of Pembroke is the most important Elizabethan woman writer and patron outside the royal family By astute use of the genres permitted to women she supported the Protestant cause introduced continental literary genres expanded opportunities for later women writers and influenced seventeenth century lyric and drama by such writers as John Donne George Herbert Mary Wroth and William Shakespeare This scholarly edition in two volumes is the first to include all her extant works Volume I prints her three original poems the disputed *Dolefull Lay of Clorinda* her translations from Petrarch Mornay and Garnier and all her known letters Volume II contains her metrical paraphrases of Psalms 44 150 The edition also provides a biographical introduction discussion of her sources and methods of composition textual annotation and a detailed commentary *European Erotic Romance* Victor Skretkowicz, 2018-07-30 *European Erotic Romance* examines the Renaissance publication and translation of the ancient Greek erotic romances and English adaptations of the genre by Sir Philip Sidney Shakespeare and Lady Mary Sidney Wroth Providing fresh insight into the development of the novel this study identifies the politicisation of erotic romance by the European philhellene lovers of all things Greek Protestant movement To English translators and authors the complex plots well developed moralised characters

particularly female and rhetorical styles of the ancient novels signify political and social reform. Generous quotation and translations ensure that European Erotic Romance is accessible to a broad spectrum of readers. Its organisation lends itself to use as a course text. It is suitable for use by senior undergraduates and specialists in Renaissance literature, translation, rhetoric and history.

Elizabethan Translation and Literary Culture Gabriela Schmidt, 2013-04-30. Reversing F O Matthiessen's famous description of translation as an Elizabethan art, Elizabethan literature may well be considered an art of translation. Amidst a climate of intense intercultural and intertextual exchange, the cultural figure of *translatio studii* had become a formative concept in most European vernacular writing of the period. However, due to the comparatively marginal status of English in European literary culture, it was above all translation in the literal sense that became the dominant mode of applying this concept in late 16th century England. Translations into English were not only produced on an unprecedented scale, they also became a key site for critical debate where contemporary discussions about authorship, style and the development of a specifically English literary identity converged. The essays in this volume set out to explore Elizabethan translation as a literary practice and as a crucial influence on English literature. They analyse the competitive balancing of voices and authorities found in these texts and examine the ways in which both translated models and English literary culture were creatively transformed in the process of appropriation.

Sovereigns and Subjects in Early Modern Neo-Senecan Drama Daniel Cadman, 2016-03-09. *Sovereigns and Subjects in Early Modern Neo-Senecan Drama* examines the development of neo-Senecan drama, also known as closet drama, during the years 1590-1613. It is the first book-length study since 1924 to consider these plays, the dramatic works of Mary Sidney, Samuel Daniel, Samuel Brandon, Fulke Greville, Sir William Alexander and Elizabeth Cary, along with the Roman tragedies of Ben Jonson and Thomas Kyd, as a coherent group. Daniel Cadman suggests these works interrogate the relations between sovereigns and subjects during the early modern period by engaging with the humanist discourses of republicanism and stoicism. Cadman argues that the texts under study probe various aspects of this dynamic and illuminate the ways in which stoicism and republicanism provide essential frameworks for negotiating this relationship between the marginalized courtier and the absolute sovereign. He demonstrates how aristocrats and courtiers such as Sidney, Greville, Alexander and Cary were able to use the neo-Senecan form to consider aspects of their limited political agency under an absolute monarch, while others such as Brandon and Daniel respond to similarly marginalized positions within both political and patronage networks. In analyzing how these plays illuminate various aspects of early modern political culture, this book addresses several gaps in the scholarship of early modern drama and explores new contexts in relation to more familiar writers, as well as extending the critical debate to include hitherto neglected authors.
