Conservative Echoes in Fin-de-Si\_cle Parisian Art Criticism Michael Marlais,2010-11-01 While the painting of the 1880s and 1890s in Paris has been studied in great depth the concurrent art criticism has not been given the attention it deserves Conservative Echoes examines previously unexplored aspects of the symbolist criticism of art revealing its conservative nature and thus providing a new view of the art criticism of one of the most significant periods in the development of modern art Art historians tend to focus on a small body of criticism written by authors who championed one or more of the artists recognized today as leaders of the avant garde In essence it is the art that directs most studies of criticism rather than the criticism itself Michael Marlais has studied late nineteenth century criticism on all levels from popular press to esoteric review in order to understand the context in which avant garde art criticism appeared He focuses on the critics F lix F n on Albert Aurier Alphonse Germain Camille Mauclair and Maurice Denis noting both conservative and modernist features of their writing while attempting to situate them within the antinaturalist intellectual trends of the period Marlais emphasizes the relationship of avant garde critics to the broader cultural milieu thus providing both a valuable corrective in the study of fin de si\_cle art history and another way of understanding the cultural climate in Paris during that time **Thackeray's Critics** Dudley Flamm,1967 In his introductory essay Flamm describes the reception of Thackeray s work identifies the principal critical attitudes that were applied to his writing evaluates the basis for those attitudes and provides a frame of reference for the items in the bibliography He also suggests some helpful guidelines for the use of the bibliographic materials Originally published in 1967 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Literary Theory and Criticism* Arun Gupto,2021-08-30 The book explores key South Asian writings on cultural theory and literary criticism It discusses the dynamics of textual contents rhetorical styles and socio political issues through an exploration of seminal South Asian scholarship in the Humanities and Social Sciences The volume examines concepts and methods of critical studies It also discusses colonial and postcolonial discourses on art religion nationalism identity representation resistance and gender in the South Asian context The essays are accompanied by textual questions and intertextual discussions on rhetorical creative and critical aspects of the selected texts The exercise questions invite the reader to explore the mechanics of reading about and writing on discursive pieces in South Asian studies Comprehensive and interdisciplinary this textbook will be indispensable for students and researchers of South Asian studies cultural theory literary criticism postcolonial studies literary and language studies women and gender studies rhetoric and composition political sociology and cultural studies A History of Russian Literary Theory and Criticism Evgeny Dobrenko,Galin Tihanov,2011-11-27 This edited volume assembles the work of leading international scholars in a comprehensive history of

Russian literary theory and criticism from 1917 to the post Soviet age By examining the dynamics of literary criticism and theory in three arenas political intellectual and institutional the authors capture the progression and structure of Russian literary criticism and its changing function and discourse The chapters follow early movements such as formalism the Bakhtin Circle Proletkult futurism the fellow travelers and the Russian Association of Proletarian Writers By the cultural revolution of 1928 literary criticism became a mechanism of Soviet policies synchronous with official ideology The chapters follow theory and criticism into the 1930s with examinations of the Union of Soviet Writers semantic paleontology and socialist realism under Stalin A more humanized literary criticism appeared during the ravaging years of World War II only to be supplanted by a return to the party line Soviet heroism and anti-Semitism in the late Stalinist period During Khrushchev's Thaw there was a remarkable rise in liberal literature and criticism that was later refuted in the nationalist movement of the long 1970s The same decade saw on the other hand the rise to prominence of semiotics and structuralism Postmodernism and a strong revival of academic literary studies have shared the stage since the start of the post Soviet era For the first time anywhere this collection analyzes all of the important theorists and major critical movements during a tumultuous ideological period in Russian history including developments in emigre literary theory and criticism

**The New Criticism** Alfred J. Drake, 2014-07-03 This volume covers a variety of authors and topics related to the New Criticism school of the 1920s 1950s in America Contributors trace the history of the New Criticism as a movement consider theoretical and practical aspects of various proponents and assess the record of subsequent engagement with its tenets The volume will prove valuable for its renewed concentration not only on the New Critics themselves but also on the way they and their work have been contextualized criticized and valorized by theorists and educators during and after their period of greatest influence both in the United States and abroad

**"Elizabeth Robins Pennell, Nineteenth-Century Pioneer of Modern Art Criticism "** KimberlyMorse Jones, 2017-07-05 Mining various archives and newspaper repositories Elizabeth Robins Pennell Nineteenth Century Pioneer of Modern Art Criticism provides the first full length study of a remarkable woman and heretofore neglected art critic Pennell a prolific New Art Critic helped formulate and develop formalist methodology in Britain at the end of the nineteenth century which she applied to her mostly anonymous or pseudonymous reviews published in numerous American and British newspapers and periodicals between 1883 and 1923 A bibliography of her art criticism is included as an appendix In addition to advocating an advanced way in which to view art Pennell used her platform to promote the work of new artists including Oudard Manet and Edgar Degas which had only recently been introduced to British audiences In particular Pennell championed the work of James McNeill Whistler for whom she along with her husband the artist Joseph Pennell wrote a biography Examination of her contributions to the late Victorian art world also highlights the pivotal role of criticism in the production and consumption of art in general a point which is often ignored
