[The Congress of Vienna and its Legacy](#) Mark Jarrett,2013-09-30 In 1814 the five reigning dynasties of Europe Alexander I of Russia and ministers such Metternich and Talleyrand descended upon Vienna The Vienna Congress marked one of the great turning points in diplomatic history the first attempt to create an international order to secure peace for the nineteenth century The blueprint for modern day global governance models such as the UN it

was a response to Napoleon's expansion across Europe and sought to build upon the state systems he left behind whilst shoring up the privileges and power of Europe's elite. Here Mark Jarrett argues that the Congress of Vienna in fact marked the beginning of the end for the Ancien Regime yet despite its disintegration following the suicide of Castlereagh the congress system has had an enormous influence up to the present day. The role of diplomacy as a means to conflict resolution, the workings of multi-lateralism and the emphasis on international organizations to guarantee national sovereignty were all long-term products of the congress system. A new synthesis of archival material: *The Congress System is a fresh exploration of a key event in the history of International Relations and Diplomacy* Hannibal's Legacy Arnold Toynbee, 1965

This publication compiles selected papers presented at a conference that marked the 40th anniversary of the advent to power of John Diefenbaker as prime minister of Canada. The papers provide a retrospective look at the domestic and international political issues and policies confronting the Diefenbaker government during an era of significant political and social change. They attempt to assess the legacy of Diefenbaker and his government's policies and decisions in different aspects of Canadian public policy and in the political culture of the years that followed. The papers cover such topics as Canada-United States relations, Canadian defence and security, political leadership, human rights, federal-provincial relations and relations with the press and the bureaucracy.

Hitler's Legacy John P. Teschke, 1999. Hitler's Legacy is the first comprehensive look at the Nazi problem in Germany from 1945 until today. The work stresses the major personnel controversies that arose from the reappearance of Nazis in key positions and the payment of generous pensions to Third Reich officials by West German governments. The first comprehensive summary of Germany's own war crime trials held since 1945, it also provides an overview of the allied postwar war crime trials at Nuremberg and elsewhere. Two case studies highlight the post-Nazi milieu of 1950s West Germany: Theodor Oberlander and Hans Globke. Both men played significant roles in the Nazi regime and became more prominent in Adenauer's 1950s West German government.
