**Conflict and Communication** Fred E. Jandt, 2016-03-22 Conflict and Communication introduces students to important theories, key concepts, and essential research in the study of conflict along with practical skills for managing conflict in their daily lives. Author Fred E. Jandt illustrates how effective communication can be used to manage conflict in relationships and within organizational and group contexts. Along with foundational coverage of conflict styles, mediation, and negotiation skills, the text also features new and emerging models of conflict management, including chapters examining the challenges of conflict between cultures, a chapter on family and organizations, information on both face-to-face and online bullying, a detailed step-by-step guide for mediation, and more emphasis on online dispute resolution. [Alternative Dispute Resolution](#)

Laurie S. Coltri, 2010 Now in paperback, this book addresses the rapidly evolving field of Alternative Dispute Resolution in a manner ahead of its time. Taking a cross-disciplinary approach, it explains the cognitive, social, organizational, and developmental psychology theories that influence ADR and its approaches. From mediation to arbitration to hybrid processes, it helps students understand the strengths and weaknesses of the many varieties of ADR and why various approaches succeed or fail. This edition includes streamlined coverage of conflict diagnosis, increased treatment of non-adversarial, facilitative forms of dispute resolution, and the latest legal and ethical trends impacting the field. For human resources, personnel, dispute resolution system designers, trainers, and ombudsmen, as well as ADR neutrals and neutrals in training.

**International Commercial Arbitration and the Arbitrator's Contract** Emilia Onyema, 2010-04-05 This book examines the formation, nature, and effect of the arbitrator's contract, addressing topics such as the appointment, challenge, removal, and duties and rights of arbitrators, disputing parties, and arbitration institutions. The arguments made in the book are based on a semi-autonomous theory of the juridical nature of international arbitration and a contractual theory of the legal nature of these relationships. From these premises, the book analyses the formation of the arbitrator's contract in both ad hoc and institutional references. It also examines the institution's contract with the disputing parties and its effect on the arbitrator's contract under institutional references. The book draws from national arbitration laws and institutional rules in various jurisdictions to give a global view of the issues examined in it. The arbitrator's contract is analysed from a global perspective of arbitral law and practice, with insights from various jurisdictions in Africa, Asia, Europe, North, and South America. The primary focus of the book is an analysis of the formation of the arbitrator's contract and the terms of this contract and the institution's contract. The primary question is the consequences if any of the breaches of the terms of these contracts and its impact on the exclusion or limitation of liability of arbitrators and institutions is also analysed, with the conclusion that since these transactions are contractual and the terms can be categorised as in any normal contract, then normal contractual remedies can be applied to the breaches of these terms. International Commercial Arbitration and the Arbitrator's Contract will be of great value to arbitration practitioners and researchers in arbitration. It will also be very

useful to students of arbitration on the topics of arbitrators and arbitration institution      **The Cumulative Book Index**
