Always The Islands Of Memory:

Always the Islands of Memory Noel Virtue, 1991 **Memory Island** Diego Antolini, 2022-04-18 David is a young man who finds himself on an island in the middle of the ocean He doesn't remember how he got there and through encounters with people and events bordering the supernatural he understands that the island is actually a dimensional bubble isolated from Time and Space Most of what he sees comes directly from his subconscious and his consciousness is eventually brought to an understanding of his mission to stop the spread of the Communitrons before they take over human consciousness The Communitrons are machines that can control the minds of their pilots Communauts evolving into sentient Homo Machina while leaving humans as empty shells or mindless humanoids David manages to leave the Island and to return to his reality with the help of Adam a Commonaut and resumes his role as a volunteer in a futuristic version of the Red Cross The world David has returned to is a huge radioactive wasteland in which some fortified megacities contain the remnants of a slowly dying technological human society During a rescue mission in the Central Asian desert David meets a woman Lucy who holds the keys to understanding the island the Communitrons and the future of human civilization Through a dimensional warp David meets the scientist who masterminded the plan that is destroying humanity Lucy is the Alpha Mater the Professor's ultimate experiment and the first Communitron that evolved by taking the mind shape and emotions of a human There's only one way to break the seemingly endless spiral of Communitrons located around the globe but it is that a sacrifice David is willing to accept **Island Indias, Archipelagic Memory**, 2026-03-23 What if India were thought of in the plural Island Indias Archipelagic Memory reimagines postcolonial cartographies through a poetics of fragments that links islands coastlines and oceans to decentre India's subcontinental core A literary critical methodology drawing on archipelagic theory island studies and transoceanic memory work reveals littoral and island geographies as dynamic and porous sites of creolised cultural memory that unsettle fixed notions of nation home and history Island Indias invites you to navigate a fluid world assembled across discontinuous shores where memory drifts ruptures and resurfaces to make fragmentation a method of world making Contributors are Rosa Beunel Fogarty Ananya Jahanara Kabir Farha Noor Nikhita Obeegadoo Shazia Rahman Luca Raimondi and Sandrine Souka *Memoir of Wm. Cypress, 1842 **Victims of Nazi Persecution in the Channel Islands** Gilly Carr, 2019-04-18 *Victims of Nazi Persecution from the Channel Islands* explores the fight and claims for recognition and legitimacy of those from the only part of the British Isles to be occupied during the Second World War The struggle to have resistance recognised by the local governments of the islands as a legitimate course of action during the occupation is something that still continues today Drawing on 100 compensation testimonies written in the 1960s and newly discovered archival material Gilly Carr sheds light on the experiences of British civilians from the Channel Islands in Nazi prisons and concentration camps She analyses the

Foreign Office's treatment of claims from Islanders and explores why the islands' local governments declined to help former political prisoners fight for compensation. Finally, the book asks why perceived sensitivities have stood in the way of honouring former political prisoners and resistance memory over the last 70 years in the Channel Islands. The testimonies explored within this volume help to place the Channel Islands back within European discourse on the Holocaust and the Second World War, as such it will be of great importance to scholars interested in Nazi occupation, persecution and post-war memory both in Britain and Europe more widely.
