The Man-Not Tommy J. Curry, 2017-07 The Before Columbus Foundation 2018 Winner of the AMERICAN BOOK AWARD Tommy J Curry s provocative book The Man Not is a justification for Black Male Studies He posits that we should conceptualize the Black male as a victim oppressed by his sex The Man Not therefore is a corrective of sorts offering a concept of Black males that could challenge the existing accounts of Black men and boys desiring the power of white men who oppress them that has been proliferated throughout academic research across disciplines Curry argues that Black men struggle with death and suicide as well as abuse and rape and their gendered existence deserves study and theorization This book offers intellectual historical sociological and psychological evidence that the analysis of patriarchy offered by mainstream feminism including Black feminism does not yet fully understand the role that homoeroticism sexual violence and vulnerability play in the deaths and lives of Black males Curry challenges how we think of and perceive the conditions that actually affect all Black males

The Sexual Mountain and Black Women Writers Calvin C. Hernton, 1990-10-27 A bold exploration of the controversial role that black women writers have played in the making of African American literature by the bestselling author of Sex and Racism in America Confirms that black women authors are celebrating a literary Fourth of July in America Plain Dealer Anchor

The Black Columbiad Werner Sollors, Maria Diedrich, 1994 After a long and painful transatlantic passage African captives reached a continent they hadn t even known existed where they were treated in ways that broke every law of civilization as they understood it This was the discovery of America for a good number of our ancestors one quite

different from the paradise Columbus heralded but no less instrumental in shaping the country's history. What finding the New World meant to those who never sought it and how they made the hostile unfamiliar continent their own is the subject of this volume, the first truly international collection of essays on African American literature and culture. Distinguished scholars, critics, and writers from around the world gather here to examine a great variety of moments that have defined the African American experience. What were the values, images, and vocabulary that accompanied African explorers on their terrifying Columbiad, and what new forms did they develop to reinvent America from a black perspective? How did an extremely heterogeneous group of African pioneers remake themselves as African Americans? The authors search out answers in such diverse areas as slavery, the transatlantic tradition, urbanization, rape and lynching, gender, Paris periodicals, festive moments, a Berlin ethnologist, Afrocentrism, Mark Twain, Spain, Casablanca, orality, the 1960s, Black Jewish relations, television images, comedy, and magic. William Wells Brown, Frank Webb, W. E. B. Du Bois, Alain Locke, Zora Neale Hurston, Richard Wright, Etheridge Knight, Ishmael Reed, Toni Morrison, Gloria Naylor, and Charles Johnson are among the many writers they discuss in detail. The result, a landmark text in African American studies, reveals within a broader context than ever before the great and often unpredictable variety of complex cultural forces that have been at work in black America.

Black Women in America
 Darlene Clark Hine, 2005 Winner of the Dartmouth Medal for Outstanding Reference Publication of 1994, the first edition of *Black Women in America* broke ground, pulling together for the first time all of the research in this vast but underrepresented field to provide one of the strongest building blocks of Black Women's Studies. Hailed by Eric Foner of Columbia University for a *Lingua Franca* survey as one of those publishing events which changes the way we look at a field, it simultaneously filled a void in the literature and sparked new research and concepts regarding African American women in history. Since the first edition was published, a new generation of American black women has flourished, demanding this landmark reference be brought up to date. Women such as Venus and Serena Williams, Condoleezza Rice, Carol Mosley Braun, Ruth Simmons, and Ann Fudge have become household names for their remarkable contributions to sports, politics, academia, and business. In three magnificent volumes, *Black Women in America*, Second Edition, celebrates the remarkable achievements of black women throughout history, highlights their ongoing contributions in America today, and covers the new research the first edition helped to generate. Features more than 150 new entries, plus revisions and updates to all previous entries. Contains 500 illustrations, many published here for the first time. Includes over 335 biographies, many newly prepared for this publication. Offers sidebars on interesting aspects of the history and culture of black women. Provides a bibliography for each entry, plus a major bibliographical essay. Features a chronology and a comprehensive index. For a complete listing of contents, visit www.oup.com/us/bwia.
