Historical Dictionary of the British Empire Kenneth J. Panton,2015-05-07 For much of the nineteenth and early twentieth centuries Britain was the dominant world power its strength based in large part on its command of an Empire that in the years immediately after World War I encompassed almost one quarter of the earth's land surface and one fifth of its population Writers boasted that the sun never set on British possessions which provided raw materials that processed in British factories could be re-exported as manufactured products to expanding colonial markets The commercial and political might was not based on any grand strategic plan of territorial acquisition however The Empire grew piecemeal shaped by the diplomatic economic and military circumstances of the times and its speedy dismemberment in the mid twentieth century was similarly a reaction to the realities of geopolitics in post World War II conditions Today the Empire has gone but it has left a legacy that remains of great significance in the modern world The *Historical Dictionary of the British Empire* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross-referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Britain [The British Empire](#) Sarah E. Stockwell,2008-01-29 This volume adopts a distinctive thematic approach to the history of British imperialism from the eighteenth to the twentieth century It brings together leading scholars of British imperial history Tony Ballantyne John Darwin Andrew Dilley Elizabeth Elbourne Kent Fedorowich Eliga Gould Catherine Hall Stephen Howe Sarah Stockwell Andrew Thompson Stuart Ward and Jon Wilson Each contributor offers a personal assessment of the topic at hand and examines key interpretive debates among historians Addresses many of the core issues that constitute a broad understanding of the British Empire including the economics of the empire the empire and religion and imperial identities

Knight, 1992 **Tulsa Studies in Women's Literature**, 2008 **Black London** Gretchen Gerzina, 1995 In Black London Gretchen Gerzina shows how by the eighteenth century the work of all kinds of artists Hogarth Reynolds Gillray Rowlandson as well as work by poets playwrights and novelists reveals to sharp eyes that not everyone in that elegant vigorous earthy world was white In fact there were black pubs and clubs balls for blacks only black churches and organizations for helping blacks out of work or in trouble Many blacks were prosperous and respected George Bridgwater was a concert violinist who knew Beethoven Ignatius Sancho corresponded with Laurence Sterne Francis Williams studied at Cambridge Others like Jack Beef were successful stewards or men of business But many more were servants or beggars some turning to prostitution or theft Alongside the free black world was slavery from which many of these people escaped In particular it was the business of kidnapping blacks for export to the West Indies that made Granville Sharp an abolitionist and brought the celebrated Somerset case before Lord Justice Mansfield Those men are now heroes of human rights yet Sharp probably did not believe in racial equality and Mansfield whose own much loved great niece was black was so worried about property rights that he did all he could to avoid a judgment that would set blacks free The ties and conflicts of black and white in England often cruel often moving were also complex and surprising This book presents a fascinating chapter of history and one long in need of exploration **Index to Black Periodicals**, 1990 **Bibliography of Imperial, Colonial, and Commonwealth History Since 1600** Andrew N. this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests Britain s overseas history has never been well supplied with comprehensive bibliographical aids and despite extensive public interest in the subject the position has steadily worsened Following the recent Oxford History of the British Empire this volume is therefore designed to provide a general source of reference and bibliographical guidance at once wide ranging up to date and accessible *The History Debate* Juliet Gardiner,1990 *Socialist Worker Review* ,1989 **Decolonizing Contemporary Gospel Music Through Praxis** Robert Beckford,2023-08-24 Is contemporary Black British gospel music a coloniality What theological message is really conveyed in these songs In this book Robert Beckford shows how the Black British contemporary gospel music tradition is in crisis because its songs continue to be informed by colonial Christian ideas about God Beckford explores the failure of both African and African Caribbean heritage Churches to Decolonise their faith especially the doctrine of God biblical interpretation and Black ontology This predicament has left song leaders musicians and songwriters with a reservoir of ideas that aim to disavow engagement with the social historical world black Biblical interpretation and the necessity of loving blackness This book is decolonisation through praxis Reflecting on the conceptual social justice album *The Jamaican Bible Remix* 2017 as a communicative resource Beckford shows how to develop production tools to inscribe decolonial theological thought onto Black British music s The outcome of this process is the creation of a decolonial contemporary gospel music genre The impact of the album is demonstrated through case studies in national and international contexts
