**The Architecture of Desire** Solangel Maldonado, 2024-05-21 Explores the reach of the law into our most personal and private romantic lives The Architecture of Desire examines how the law influences our most personal and private choices who we desire and choose as intimate partners and explores the psychological economic and social effects of these choices

Romantic preferences as shaped by law perpetuate segregation and subordination by limiting on the basis of race individuals prospects for marriage and marriage like commitments as well as economic and social mobility The book begins by tracing the legacy of slavery anti miscegenation segregation and racially discriminatory immigration laws to show how this legal landscape facilitated the residential economic and social distance between racial and ethnic groups which in turn continue to shape romantic preferences today Solangel Maldonado argues that the law further influences intimate choices by structuring the spaces within which individuals meet and interact via practices such as redlining gentrification and zoning Maldonado includes studies of online and offline dating preferences to demonstrate that romantic predilections follow a gendered racial hierarchy in which Whites are at the top African Americans at the bottom and depending on skin tone Asian Americans and Latinos in the middle These preferences may be explicit implicit or both but they are usually the result of stereotypes reflected in social and cultural norms Furthermore since marriage confers substantial legal economic and social advantages sexual racism further limits an individual s opportunity to find a partner and reap these benefits Finally the book proposes ways to minimize the law s influence over who we desire love and bring into our families such as changes to dating platforms as well as to housing education and transportation policies Chicana Leadership Yolanda Flores Niemann,2002-01-01

Chicana Leadership The Frontiers Reader breaks the stereotypes of Mexican American women and shows how these women shape their lives and communities This collection looks beyond the frequently held perception of Chicanas as passive and submissive and instead examines their roles as dynamic community leaders activists and scholars Chicana Leadership features fifteen essays from the notable women s journal Frontiers A Journal of Women Studies that demonstrate the strength and diversity of Chicanas as well as their continuing struggle to have their voices heard Noted scholars discuss issues ranging from the feminist prototype La Malinche to Chicana writers and national ideology from gender and identity to ideas of culture and romance and from tokenism to the diversity within the Chicana community The essays provide an introduction to an evolving understanding of this diverse community of women and how they interact among themselves with their community and with the world around them **Race, Ethnicity, And Nationality In The United States** Paul

Wong,2021-09-02 This book is intended for use in advanced undergraduate and graduate level courses on race and ethnicity and on diversity in America It was first conceived as a collective project of the Research and Resident Scholar Program in Comparative Race Relations at Washington State University which was established in 1994 with support from the Rockefeller Foundation A number of the participating authors are established scholars in racial ethnic studies and several have published award winning bestsellers Others are relative newcomers to the field who were invited to join the project because they were doing important work on less well covered topics such as relations between African Americans and Chicano Latino Americans
