Blackout Looting:

Blackout James Goodman, 2005-07-05 On July 13 1977 there was a blackout in New York City With the dark came excitement adventure and fright in subway tunnels office towers busy intersections high rise stairwells hotel lobbies elevators and hospitals There was revelry in bars and restaurants music and dancing in the streets On block after block men and women proved themselves heroes by helping neighbors and strangers make it through the night Unfortunately there was also widespread looting vandalism and arson Even before police restored order people began to ask and argue about why Why did people do what they did when the lights went out The argument raged for weeks but it was just like the night lots of heat little light a shouting match between those who held fast to one explanation and those who held fast to another James Goodman cuts between accidents encounters conversations exchanges and arguments to re create that night and its aftermath in a dizzying accumulation of detail Rejecting simple dichotomies and one dimensional explanations for why people act as they do in moments of conflict and crisis Goodman illuminates attitudes ideas and experiences that have been lost in facile generalizations and analyses Journalistic re creation at its most exciting **Blackout** provides a whirlwind tour of 1970s New York and a challenge to conventional thinking

[Revolting New York](#) Neil Smith, Don Mitchell, 2018-04 Occupy Wall Street did not come from nowhere It was part of a long history of riot revolt uprising and sometimes even revolution that has shaped New York City From the

earliest European colonization to the present New Yorkers have been revolting Hard hitting revealing and insightful Revolting New York tells the story of New York s evolution through revolution a story of near continuous popular and sometimes not so popular uprising Richly illustrated with more than ninety historical and contemporary images historical maps and maps drawn especially for the book Revolting New York provides the first comprehensive account of the historical geography of revolt in New York from the earliest uprisings of the Munsee against the Dutch occupation of Manhattan in the seventeenth century to the Black Lives Matter movement and the unrest of the Trump era Through this rich narrative editors Neil Smith and Don Mitchell reveal a continuous if varied and punctuated history of rebellion in New York that is as vital as the more standard histories of formal politics planning economic growth and restructuring that largely define our consciousness of New York s story Contributors Marnie Brady Kathleen Dunn Zult n Gluck Rachel Goffe Harmony Goldberg Amanda Huron Malav Kanuga Esteban Kelly Manissa McCleave Maharawal Don Mitchell Justin Sean Myers Brendan P O Malley Raymond Pettit Miguelina Rodriguez Jenjoy Roybal McNair Scott Erin Siodmak Neil Smith Peter Waldman and Nicole Watson *Fear City* Kim Phillips-Fein,2017-04-18 PULITZER PRIZE FINALIST An epic riveting history of New York City on the edge of disaster and an anatomy of the austerity politics that continue to shape the world today When the news broke in 1975 that New York City was on the brink of fiscal collapse few believed it was possible How could the country s largest metropolis fail How could the capital of the financial world go bankrupt Yet the city was indeed billions of dollars in the red with no way to pay back its debts Bankers and politicians alike seized upon the situation as evidence that social liberalism which New York famously exemplified was unworkable The city had to slash services freeze wages and fire thousands of workers they insisted or financial apocalypse would ensue In this vivid account historian Kim Phillips Fein tells the remarkable story of the crisis that engulfed the city With unions and ordinary citizens refusing to accept retrenchment the budget crunch became a struggle over the soul of New York pitting fundamentally opposing visions of the city against each other Drawing on never before used archival sources and interviews with key players in the crisis *Fear City* shows how the brush with bankruptcy permanently transformed New York and reshaped ideas about government across America At once a sweeping history of some of the most tumultuous times in New York s past a gripping narrative of last minute machinations and backroom deals and an origin story of the politics of austerity *Fear City* is essential reading for anyone seeking to understand the resurgent fiscal conservatism of today **Ladies and Gentlemen, the Bronx Is Burning** Jonathan Mahler,2006-03-21 By early 1977 the metropolis was in the grip of hysteria caused by a murderer dubbed Son of Sam And on a sweltering night in July a citywide power outage touched off an orgy of looting and arson that led to the largest mass arrest in New York s history As the turbulent year wore on the city became absorbed in two epic battles the fight between Yankee slugger Reggie Jackson and team manager Billy Martin and the battle between Ed Koch and Mario Cuomo for the city s mayoralty Buried beneath these parallel conflicts one for the soul of baseball the other for the soul of the city was the subtext

of race The brash and confident Jackson took every black myth and threw it back in white America's face Meanwhile Koch and Cuomo ran bitterly negative campaigns that played upon urbanites' fears of soaring crime and falling municipal budgets These braided stories tell the history of a year that saw the opening of Studio 54 the evolution of punk rock and the dawning of modern SoHo As the pragmatist Koch defeated the visionary Cuomo and as Reggie Jackson finally rescued a team racked with dissension 1977 became a year of survival but also of hope Publishers description **The New York City Blackout of 1977** Charles River Charles River Editors, 2018-02-21 Includes pictures Includes accounts of the blackout by NYC residents Includes online resources and a bibliography for further reading Includes a table of contents Perhaps the most significant effects of the blackout were those felt by public and private organizations with responsibility for the economic and social activities of New York City and its inhabitants In many cases these organizations were ill prepared for the blackout and much of the chaos economic loss and individual inconvenience resulted from this lack of preparedness The Federal Energy Regulatory Commission's Impact Assessment of the 1977 New York Blackout Report Throughout history light has been associated with goodness and darkness has been a connotation for evil This is no coincidence given that many bad deeds that take place in the world under the cover of darkness It's no surprise civilizations have always valued the ability to keep light present even when the sun goes down and the world itself becomes dark Beginning with the first discovery of fire men and women have struggled with ways to tame it for their use so that they might have a sense of safety at night Just as a roaring fire lit at the mouth of a cave would keep out four legged predators so it was widely believed that electric lights could discourage marauders of the two legged kind But what happens when the awesome and occasionally awful power of nature snatches light away from those who depend on it to feel safe This question was answered in a most dismaying way in July 1977 when New York City was plunged into darkness for over 24 hours following a thunderstorm New Yorkers across the city quickly learned that without the light they could fall prey to looting and violence of just about every kind imaginable It did not help that this disaster occurred at a time when the city was under more stress than usual due to a poor economy and frequent reports of a new murder by a serial killer calling himself the Son of Sam On the other side for some the opportunity to take things without much danger of getting caught was about survival a chance to stock up on items that they felt they needed but could not afford to buy For others the looting was a way to blow off steam and strike back at what they perceived to be an unjust system that kept them from having the things they wanted in life There was even a third group comprised of people who told themselves that what they were doing was not really stealing since the stores were left unguarded and someone else would take the items if they did not Working near those bent on destruction during that terrible night were men and women trying to save and restore what was being lost Police firefighters and workers from Con Ed electric company toiled away to try to restore some semblance of order to the city but unfortunately by the time they accomplished their tasks each group had lost more than it won The police arrested thousands but knew that they missed thousands more The

firefighters put out many fires but many more spread their destructive flames through homes and businesses of people just trying to make a living And those men who worked through the night to restore power quickly found themselves accused of negligence for letting it go out in the first place Overall the blackout yielded many losers and few winners for even those who got away with looting and arson would have to live with their own consciences In the wake of the blackout Mayor Abe Beame may have put it best when he complained We ve seen our citizens subjected to violence vandalism theft and discomfort The Blackout has threatened our safety and has seriously impacted our economy We ve been needlessly subjected to a night of terror in many communities that have been wantonly looted and burned The costs when finally tallied will be enormous
