Drawing social theory cultural studies and psychoanalysis together in a bold configuration Elliott challenges the widespread view that social theory seems to have lost its way as a result of the diversification of conceptual approaches
In outlining an approach that places imagination and creativity at the center of social theory Elliott argues that theoretical pluralism from post structuralism to postmodernism from psychoanalysis to deconstruction represents not the demise but the renewal of critical social theory
Elliott opens with critical readings of the terrain of contemporary social theory and theorists among them Ulrich Beck Anthony Giddens Jurgen Habermas Jacques Lacan Cornelius Castoriadis and Julia Kristeva
He follows with an analysis of key debates in critical social theory
Questions relating to the globalization of risk citizenship morality and ethics politics and norms and sexuality and desire are all explored
