Blanket Boys Moon:

Blanket Boy's Moon Peter Lanham, 1953 **Heterosexual Africa?** Marc Epprecht, 2008-08-15 Heterosexual Africa The History of an Idea from the Age of Exploration to the Age of AIDS builds from Marc Epprecht's previous book Hungochani which focuses explicitly on same sex desire in southern Africa to explore the historical processes by which a singular heterosexual identity for Africa was constructed by anthropologists ethnopsychologists colonial officials African elites and most recently health care workers seeking to address the HIV AIDS pandemic This is an eloquently written accessible book based on a rich and diverse range of sources that will find enthusiastic audiences in classrooms and in the general public Epprecht argues that Africans just like people all over the world have always had a range of sexualities and sexual identities Over the course of the last two centuries however African societies south of the Sahara have come to be viewed as singularly heterosexual Epprecht carefully traces the many routes by which this singularity this heteronormativity became a dominant culture In telling a fascinating story that will surely generate lively debate Epprecht makes his project speak to a range of literatures queer theory the new imperial history African social history queer and women's studies and biomedical literature on the HIV AIDS pandemic He does this with a light enough hand that his story is not bogged down by endless references to particular debates Heterosexual Africa aims to understand an enduring stereotype about Africa and Africans It asks how Africa came to be defined as a homosexual free zone during the colonial era and how this idea not only survived the transition to independence but flourished under conditions of globalization and early panicky responses to HIV AIDS

We are Fighting the World Gary Kynoch, 2005 Since the late 1940s a violent African criminal society known as the Marashea has operated in and around South Africa's gold mining areas With thousands of members involved in drug smuggling extortion and kidnapping the Marashea was more influential in the day to day lives of many black South Africans under apartheid than were agents of the state These gangs remain active in South Africa In *We Are Fighting the World A History of the Marashea Gangs in South Africa 1947 1999* Gary Kynoch points to the combination of coercive force and administrative weakness that characterized the apartheid state As long as crime and violence were contained within black townships and did not threaten adjacent white areas township residents were largely left to fend for themselves The Marashea's ability to prosper during the apartheid era and its involvement in political conflict led directly to the violent crime epidemic that today plagues South Africa Highly readable and solidly researched *We Are Fighting the World* is critical to an understanding of South African society past and present This pioneering study challenges previous social history research on resistance ethnicity urban spaces and gender in South Africa Kynoch's interviews with many current and former gang members give *We Are Fighting the World* an energy and a realism that are unparalleled in any other published work on gang violence in southern Africa
