**The Art of Libation in Classical Athens** Milette Gaifman, 2018-01-01 This handsome volume presents an innovative look at the imagery of libations the most commonly depicted ritual in ancient Greece and how it engaged viewers in religious performance In a libation liquid water wine milk oil or honey was poured from a vessel such as a jug or a bowl onto the ground an altar or another surface Libations were made on occasions like banquets sacrifices oath taking departures to war and visitations to tombs and their iconography provides essential insight into religious and social life in 5th century BC Athens Scenes depicting the ritual often involved beholders directly a statue s gaze might establish the onlooker as a fellow participant or painted vases could draw parallels between human practices and acts of gods or heroes Beautifully illustrated with a broad range of examples including the Caryatids at the Acropolis the Parthenon Frieze Attic red figure pottery and funerary sculpture this important book demonstrates the power of Greek art to transcend the boundaries between visual representation and everyday experience *Religion in the Art of Archaic and Classical Greece* Tyler Jo Smith, 2021-06-18 An examination of the combined subjects of ancient Greek art and religion dealing with festivals performance rites of passage and the archaeology of death to name a few examples to explore the visual material and textual dimensions of ancient Greek religion *The Oxford Handbook of Greek and Roman Art and Architecture* Clemente Marconi, 2015 An innovative and up to date synopsis of the field of Greek and Roman Art and Architecture filling a genuine need in the literature , **Aspekte des Menschseins im Alten Mesopotamien** Ulrike Steinert, 2012-02-17 Being the first monographic study of this kind in the field of Assyriology this book comprises an investigation of Ancient Mesopotamian concepts of the human person Concentrating on Akkadian cuneiform texts from the 2nd and 1st millennium BC the author examines the characteristics and attributes attached to human beings and the notions of the person as a composite being through a semantic analysis of Akkadian terms for the body body parts and aspects of the self which can be termed souls Through an examination of a wide range of textual sources and an interdisciplinary approach this study shows that the Mesopotamian views of personhood share amazing similarities with those of the neighbouring ancient cultures but often differ from our own in short as a piece of modern Assyriological scholarship it is very well done and a tribute to its author s capabilities and accomplishments Benjamin R Foster Yale University **Becoming Good Democrats and Wives** Burkhard Fehr, 2011 In this study the analysis of the Parthenon frieze is based on the assumption that the pictorial narrative scenes of the Classical period were conceived with the intention of exemplifying comprehensive patterns of action which were related to ethical values and social status In this way it can be shown that on the west north and south side of the frieze the pictorial narration in several chapters demonstrates how the young male Athenians become qualified members of the citizenry through a multi stage process of civic education carried out by the democratic polis The stages of female socialization are visualized on the east side the goal being the status and responsibilities of a married woman who raises and educates her offspring in an Athenian

oikos as represented in the central scene of the east frieze The messages of the other Parthenon sculptures as well as of the colossal statue of Athena in the center of this sacred building are closely related to this frame of reference One could claim that the pictorial narrative of the Parthenon frieze is the first comprehensive discourse on democracy Series Hephaistos
