**Altered Egos** Todd E. Feinberg, 2002-05-02 In *Altered Egos* Dr Todd Feinberg presents a new theory of the self based on his first hand experience as both a psychiatrist and neurologist Feinberg introduces dozens of intriguing cases of patients whose disorders have resulted in what he calls altered egos a change in the brain that transforms the boundaries of the self He describes patients who suffer from alien hand syndrome where one hand might attack the patient s own throat patients with frontal lobe damage who invent fantastic stories about their lives paralyzed patients who reject and disown one of their limbs He then argues that the brain damage suffered by these people has done more than simply impair certain functions it has fragmented their sense of self From these fascinating cases Feinberg proposes a new model of the self that links the workings of the brain with unique and personal features of the mind such as meaning purpose and being Drawing on his own and other evidence he explains how the unified self while not located in one or another brain region arises out of the staggering complexity and number of the brain s component parts Lucid insightful filled with fascinating case studies and provocative new ideas *Altered Egos* promises to change the way we think about human consciousness and the creation and maintenance of human identity *Altered Egos* Carl Beam, Elizabeth McLuhan, Thunder Bay National Exhibition

Centre, 1984 **Altered Egos** G. Thomas Couser, 1989-11-09 This work explores the authority of autobiography in several related senses first the idea that autobiography is authoritative writing because it is presumably verifiable second the idea that one s life is one s exclusive textual domain third the idea that because of the apparent congruence between the implicit ideology of the genre and that of the nation autobiography has a special prestige in America Aware of the recent critiques of the notion of autobiography as issuing from determined by or referring to a pre-existing self Couser examines the ways in which the authority of particular texts is called into question for example because they involve pseudonymity Mark Twain the revision of a presumably spontaneous form Mary Chesnut s Civil War diaries bilingual authorship Richard Rodriguez and Maxine Hong Kingston collaborative production *Black Elk* or outright fraud Clifford Irving s autobiography of Howard Hughes Couser examines both the way in which canonical autobiographers may playfully and purposely undermine their own narrative authority and the way in which minority writers control of their lives may be compromised Autobiography then is portrayed here as an arena in which individuals struggle for self possession and self expression against the constraints of language genre and society *Altered Egos* H. Heaberlin, 2005-02

The old woman stirred and with reluctance raised her head saying I can tell you this as she strained to sit up straight The man with you now will always serve you well There is another a flamboyant person in much distress who will come to you very shortly who will prove to be invaluable She paused to take some more breaths before continuing There is yet another a very powerful soul a male who is now a child As an adolescent he will come to you seeking information and again as a young man seeking guidance These people are your family you are soul mates and as a group you will be a remarkable force With that said Charlene again slumped back into her chair

In *Altered Egos* four unique individuals join forces for an exciting adventure into the realm of the paranormal. Introducing Leola, an exceptional psychic and intellectual who has raised herself since she was a child; Claude, the gentle giant and faithful friend; Zah, the flamboyant former barmaid whose gender is sometimes difficult to define; Wesley, the handsome virile yet troubled young man who can hear what people are thinking.
