Alternative Agriculture:

Alternative Agriculture National Research Council, Board on Agriculture, Committee on the Role of Alternative Farming Methods in Modern Production Agriculture, 1989-02-01 More and more farmers are adopting a diverse range of alternative practices designed to reduce dependence on synthetic chemical pesticides fertilizers and antibiotics cut costs increase profits and reduce the adverse environmental consequences of agricultural production Alternative Agriculture describes the increased use of these new practices and other changes in agriculture since World War II and examines the role of federal policy in encouraging this evolution as well as factors that are causing farmers to look for profitable environmentally safe alternatives Eleven case studies explore how alternative farming methods have been adopted and with what economic results on farms of various sizes from California to Pennsylvania

Beyond Alternative Agriculture to the Alternative Food System Saori Kitajima, 2003 Alternative Agriculture Institute for Alternative Agriculture (U.S.), 1984 Alternative Agriculture United States. General Accounting Office, 1990 *The Basic Principles of Sustainable Agriculture* William J. Hudson, 1991 Alternative Agriculture Richard Wiles, 1999-07 Examines the scientific and economic viability of agriculture systems that can help farmers and policymakers achieve the goals of keeping U S farm exports competitive cutting production costs and reducing the environmental consequences of farming Describes the dimensions of U S agriculture in the domestic and world economies and its evolution since WWII Outlines some of the economic and environmental consequences of agricultural practices and fed gov t policies Examines the basic science supporting farming practices widely used in alternative agriculture and analyzes the economic potential of alternative systems Case studies

Organic, Low-input Or Sustainable Agriculture 1984-1987 Jayne T. MacLean, 1988 **Organic, Low-input Or Sustainable Agriculture, June 1986--March 1989** Jayne T. MacLean, 1989 **Sustainable Agriculture**, 1999 Farmline, 1988 **Agricultural Outlook**, 1988 Agroecology in Action Keith Warner, 2007 Detailed case studies of agroecological initiatives show how growers scientists agricultural organizations and public agencies can form partnerships to develop innovative ecologically based techniques for reducing reliance on agrochemicals Together at the Table Patricia Allen, 2004-10-04 Everywhere you look people are more aware of what they eat and where their food comes from In a cafeteria in Los Angeles children make their lunchtime food choices at fresh fruit and salad bars stocked with local foods In a community garden in New York low income residents are producing organically grown fruits and vegetables for their own use and to sell at market In Madison Wisconsin shoppers select their food from a bounty of choices at a vibrant farmers market Together at the Table is about people throughout the United States who are building successful alternatives to the contemporary agrifood system and their prospects for the future At the heart of these efforts are the movements for sustainable agriculture and community food security Both movements seek to reconstruct the agrifood system the food production chain from the growing of crops to

food production and distribution to become more ecologically sound economically viable and socially just Allen describes the ways in which people working in these movements view the world and how they see their place in challenging and reshaping the agrifood system She also shows how ideas and practices of sustainable agriculture and community food security have already woven their way into the dominant agrifood institutions Allen explores the possibilities this process may hold for improving social and environmental justice in the American agrifood system Together at the Table is an important reminder that much work still remains to be done Now that the ideas and priorities of alternative food movements have taken hold it is time for the next even more challenging step Alternative agrifood movements must acknowledge and address the deeper structural and cultural patterns that constrain the long term resolution of social and environmental problems in the agrifood system

A Green and Permanent Land Randal S. Beeman,James A. Pritchard,2001 Once patronized primarily by the counterculture and the health food establishment the organic food industry today is a multi billion dollar business driven by ever growing consumer demand for safe food and greater public awareness of ecological issues Assumed by many to be a recent phenomenon that industry owes much to agricultural innovations that go back to the Dust Bowl era This book explores the roots and branches of alternative agricultural ideas in twentieth century America showing how ecological thought has challenged and changed agricultural theory practice and policy from the 1930s to the present It introduces us to the people and institutions who forged alternatives to industrialized agriculture through a deep concern for the enduring fertility of the soil a passionate commitment to human health and a strong advocacy of economic justice for farmers Randal Beeman and James Pritchard show that agricultural issues were central to the rise of the

environmental movement in the United States As family farms failed during the Depression a new kind of agriculture was championed based on the holistic approach taught by the emerging science of ecology Ecology influenced the permanent agriculture movement that advocated such radical concepts as long term land use planning comprehensive soil conservation and organic farming Then in the 1970s sustainable agriculture combined many of these ideas with new concerns about misguided technology and an over consumptive culture to preach a more sensible approach to farming In chronicling the overlooked history of alternative agriculture A Green and Permanent Land records the significant contributions of individuals like Rex Tugwell Hugh Bennett Louis Bromfield Edward Faulkner Russell and Kate Lord Scott and Helen Nearing Robert Rodale Wes Jackson and groups like Friends of the Land and the Practical Farmers of Iowa And by demonstrating how agriculture also remains central to the public interest especially in the face of climatic crises genetically altered crops and questionable uses of pesticides this book puts these issues in historical perspective and offers readers considerable food for thought
