Kiltboy: a Life on the Run Paul Ingham Lineback, 2018-03-02 There are many books about running available that attempt to discover what it all means to be out along a course street or trail about the psychology makeup sensibility and consciousness of it all the camaraderie the friendship the overcoming surmounting and the conquering of ones self just the mindfulness the being and presence of running This book is definitely not one of them During his runs in the kilt the overriding question was What do you have on underneath His response Do you really want to know So in the picture the girl is attempting to discover the secret for herself peaking behind the curtain if you will A metaphorical look into the mysteries that we all have within I didnt know there were Twelve days of Marathon I wish that I were young and indestructible again I would join you in some of your delightful adventures What a wonderful way to keep a personal journal Youre my hero Dean Thomson What an epic Keep on charging Kilt Boy Dean Karnazes I have no idea how you run in the kilt If I have the slightest rough spot or friction from my outfit I rash out The kilt doesn t wilt Charlie Nickell **Phoenix on the Run** S. Time Jared Genser and Irwin Cotler provide a comprehensive overview on how this contemporary principle of international law has developed and analyze how best to apply it to current and future humanitarian crises The responsibility to protect is a doctrine unanimously adopted by the UN World Summit in 2005 which says that all states have an obligation to protect their own citizens from mass atrocities which includes genocide war crimes crimes against humanity and ethnic cleansing Its adoption and application has generated a passionate debate in law schools professional organizations media and within the U N system To present a full picture of where the doctrine now stands and where it could go in the future editors Jared Genser and Irwin Cotler have assembled a global team of authors with diverse backgrounds and differing viewpoints including Edward Luck the UN Secretary General s Special Advisor on the Responsibility to Protect Genser and Cotler balance the pro RtoP chapters with more skeptical arguments from agency staff and scholars with long experience in addressing mass atrocities Framed by a Preface from Desmond Tutu and Vaclav Havel and a Conclusion from Gareth Evans these in depth and authoritative analyses move beyond theory to demonstrate how RtoP has worked on the ground and should work if applied to other crises The global focus of this book as well as its detailed application of the principle in case studies make it uniquely useful to staff at international organizations and NGOs considering use of the principle in a given circumstance to scholars providing advice to governments and to students seeking guidance on this still expanding subject Petroleum Times ,1926
