Rambam: Readings in the Philosophy of Moses Maimonides Moses Maimonides, 1976-01-06 Moses Maimonides known by the acronym Rambam was unquestionably the foremost intellectual figure of medieval Judaism Born in Cordova Spain forced at an early age to conceal his faith he emigrated to Morocco and then Palestine before settling in Egypt where financial necessity compelled him to study medicine and where he eventually became personal physician to Saladin Although his medical skills were renowned and his writings in this field were widely studied throughout the Western world in the following centuries Maimonides primary interest was theology He devoted ten years to preparing Mishnah Torah and fifteen years to The Guide to the Perplexed the first written in Hebrew the second in Arabic These studies of Jewish law were first considered radical in their efforts to reconcile religious and scientific thought but later became pillars of traditional Jewish faith Dr Lenn Goodman has prepared new translations from these works arranging the extensive excerpts by topic to focus on Maimonides principal contributions to philosophy These are accompanied by commentary and analysis clarifying the complexities of his thought and providing the historical and religious background required by the modern lay reader The introduction details Rambam s life and evaluates his role in history and theology The study of Maimonides is essential to the understanding of Judaism and Western culture Rambam makes his writings accessible to those who cannot work from the original texts and meaningful to those who have not had extensive previous exposure to medieval theology

Daimonion Exhibition André Harke, 2022-04-20 This is the catalog of the Daimonion Exhibition It presents 4 large scale paintings acrylic and oil on canvas and 44 drawings indian ink on paper by visual artist Andr Harke The exhibition took place in April and May 2022 at Danera Gallery in central Berlin Germany The concept of Daimonion was first developed by Socrates who perceived the Daimonion as an inward mentor conceived as partaking of the nature of a demon or inspired by one Socrates engaged in inner dialogs with the Daimonion and realized that the suggestions of the Daimonion were always protecting and meaningful to him in his personal experience In my own personal experience the Daimonion does not emerge as a being from beyond the border of the Self or as a separate being that would come into one s awareness The Daimonion for me emerges as an impression of a higher awareness of the Self as well as the Self s surrounding universe It is to me the very installation of reflective thinking to expand the individual awareness beyond its borders and to change the Self in accordance with individuality and aim The Daimonion for me is an individual perception of the Black Flame a substance whose recognition enables the Initiate to Xeper and which can evolve within the Initiate to higher awareness If perceived within the Self this can be called the Daimonion In other words the individual perception of the Black Flame within the Self is a realization of the Daimonion as mentioned for the first time in this way by Sokrates The large scale paintings that are shown in this exhibition are materialized and visualized core principles as I understand perceive and experience them along the path of Initiation
