Black History in the Pages of Children's Literature Rose Casement, 2008 This book presents Black history contextualized in chapters that provide both an introduction to historical periods and an annotated bibliography of outstanding children's literature that can be used to introduce and teach the history of each period

Whaling Captains of Color Skip Finley, 2022-02-15 The history of whaling as an industry on this continent has been well told in books including some that have been bestsellers but what hasn't been told is the story of whaling's leaders of color in an era when the only other option was slavery Whaling was one of the first American industries to exhibit diversity A man became a captain not because he was white or well connected but because he knew how to kill a whale Along the way he could learn navigation and reading and writing Whaling presented a tantalizing alternative to mainland life Working with archival records at whaling museums in libraries from private archives and interviews with people whose ancestors were whaling masters Finley culls stories from the lives of over 50 black whaling captains to create a portrait of what life was like for these leaders of color on the high seas Each time a ship spotted a whale a group often including the captain would jump into a small boat row to the whale and attack it at times with the captain delivering the killing blow The first second or third mate and boat steerer could eventually have opportunities to move into increasingly responsible roles Finley explains how this skills based system propelled captains of color to the helm The book concludes as facts and factions conspire to kill the industry including wars weather bad management poor judgment disease obsolescence and a non renewable natural resource Ironically the end of the Civil War allowed the African Americans who were captains to exit the difficult and dangerous occupation and make room for the Cape Verdean who picked up the mantle literally to the end of the industry

Cultural Journeys Pamela S. Gates, Dianne L. Hall Mark, 2010-08-16 As multicultural education is becoming integral to the core curriculum teachers often implement this aspect into their courses through literature However standards and criteria to teach and promote active discussion about this literature are sparse Cultural Journeys introduces pre service and experienced teachers to the use of literature to promote active discussions that lead students to think about racial

diversity More than just an annotated list of books for children Pamela S Gates and Dianne L Hall Mark provide systematic guidelines that teachers can use throughout their careers to evaluate multicultural literature for students in grades K 8 At the same time the text leads the reader to a deeper understanding of how to use multicultural literature throughout the entire curriculum and not just during specially designated months or time periods With the example unit plans and extensive annotated bibliography this book is a valuable resource that pre service teachers will utilize when they begin teaching and in service teachers will reference repeatedly during their planning periods [White Sails, Black Clouds](#) John J.
