*Customs and Cultures* Eugene Albert Nida, 1975 This is the 2003 printing of this highly requested book A wide ranging sometimes startling and often humorous encounter with the strange ways of the human race which will appeal as much to the general reader as to the missionary *Theology Today* Customs and Cultures (Revised Edition) Eugene A.

Nida, 1975-06-01 How can the church meaningfully and intelligently engage cultures with Christianity Oftentimes it is not the message but the messenger that provides the greatest stumbling block for the average non Christian A missionary s ability to identify with the people not in sympathy but in empathy is one of the keys Language is another crucial factor Anthropology and missions have much to learn from each other *Customs and Cultures* provides practical ways missionaries can become acquainted with the cultural anthropology of the local community Eugene Nida a leading scholar and devout Christian presents a thorough study of the means and methods which best communicate Christianity to people of diverse backgrounds Dr Nida is uniquely equipped to write this book because he is a well known specialist in linguistics anthropology studies and the interpretation of the Christian faith who worked with missionaries on translation problems for over thirty years The development of the church is the real goal The power of Jesus Christ working through his consecrated servants can sanctify all of life to the glory of God **Customs and Culture** Eugene Albert Nida, 1954 Customs and Culture Eugene A.

Nida, 1954 **Mission & Culture: The Louis J. Luzbetak Lectures** Stephen B. Bevans, 2012 **The Holy Spirit and Mission Dynamics** C. Douglas McConnell, 1997-09-15 *The Holy Spirit and Mission Dynamics* What role does the Holy Spirit play in church growth and missions This question has stimulated much conversation among theologians and missiologists Without reflecting on the matter practitioners are ill equipped to engage in spiritual warfare or discern the hand of God from counterfeit works of human strategy The ten chapters in *The Holy Spirit and Mission Dynamics* attempt to reflect on the most critical and controversial aspects of the debate The contributors draw from numerous specialties including philosophy hermeneutics historiography and theology Part one provides a biblical theological perspective that helps readers assess phenomena observed in both history and contemporary mission practice Part two gives multiple historical accounts of the Holy Spirit s ministry in various mission contexts Finally the five chapters in part three examine several contemporary concerns raised by Peter Wagner and four respondents This book prepares readers to reflect on their experience in light of theology and exegesis Ultimately they will better understand the Holy Spirit s ministry in diverse missions contexts

*Dictionary of Mission* Karl Muller, Theo Sundermeier, Stephen B. Bevans, Richard H. Bliese, 2006-01-30 Conceived and developed by two of Europe's most eminent missiologists in the country where the scientific and sustained study of mission first took shape the *Dictionary of Mission* represents the finest of the chorus of voices that comprise contemporary missiology The choice of topics and the authors to address them reflects what Christian mission has become a genuinely worldwide and ecumenical phenomenon That there would be entries on regional theological developments is indicative of how the world church is developing A host of other topics here explored show too how the landscape of mission is changing Taken as a whole then the *Dictionary of Mission* is a road map through this exciting and challenging terrain from the Foreword

*Theology in the Context of World Christianity* Timothy C. Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It's no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable *Theology in the Context of World Christianity* is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ's global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity
