Women Bernard Chapin, 2007-09 In *Women Theory and Practice* Bernard Chapin challenges the accepted theories of feminism and sexual equality in this thought provoking revolutionary look at the battle of the sexes in the twenty first century This book captures the true essence of today s apocryphal gap between men and women and how it affects not only the workplace but also romantic relationships and the interactions of men and women everywhere Chapin introduces a truly contrarian argument against society s current atmosphere of political correctness He also makes a convincing case for the hidden damage caused by the women s movement and the popular mindset that women are no longer just the fairer sex they are the better sex Chapin questions the rationale behind policies and laws created to protect women s rights and to construct equality in the workplace Chapin describes society s current backlash against men and how it has created a culture that has wrongly declared women to be intellectually morally and emotionally superior *Women Theory and Practice* provides a clear rational argument against a popular socio political atmosphere that has turned women into demi gods and men into second class citizens

Brand Beauty Unleashed Roberto M. Álvarez del Blanco, 2020-03-12 This book presents an in depth careful study of our understanding of the concept of beauty in everyday objects and its impact on markets and brands Moving beyond artistic notions of beauty it demonstrates how beauty is an asset that can be leveraged in the marketplace Traditionally beauty has been examined in relation to its influence on painting sculpture literature music and architecture However its value and power in the marketplace is understudied lvarez del Blanco provides a systematic analysis of beauty in commonplace objects and brands drawing on cutting edge research at the intersection of marketing and neurosciences

Through examining the neuroscientific evidence for how the brain processes beauty the author articulates the implications this may have on marketing and brand management He also offers a glimpse of how beauty may evolve and its marketing implications for firm strategy in the coming decades Written by a recognized authority in marketing and brand strategy Brand Beauty Unleashed gives students with an interest in marketing consumer behavior branding and neuromarketing an exciting new perspective on this intangible asset

The Political Economy of Global Warming Del Weston,2014-04-11

Humanity is facing an unprecedented global catastrophe as a result of global warming This book examines the reasons why international agencies together with national governments are seemingly unable to provide real and binding solutions to the problems The reasons presented relate to the existing dominant global economic structure of capitalism as well as the fact that global warming is too often seen as an isolated problem rather than one of a suite of exceptional converging and accelerating crises arising from the global capitalist political economy This book adopts a political economy framework to address these issues It accepts the science of global warming but challenges the predominant politics and economics of global warming To illustrate the key issues involved the book draws on South Africa building on Samir Amin s thesis that the country represents a microcosm of the global political economy By taking a political economy approach the book provides a clear explanation of the deep and pervasive problem of the denial which fails to acknowledge global warming as a systemic rather than a market problem The book should be of interest to students and scholars researching climate change environmental politics environmental and ecological economics development studies and political economics

Robinson, 2006-12-12 How has the collapse of communism across Europe and Eurasia changed gender In addition to acknowledging the huge costs that fell heavily on women *Living Gender after Communism* suggests that moving away from communism in Europe and Eurasia has provided an opportunity for gender to multiply from varieties of neo traditionalism to feminisms from overt negotiation of femininity to denials of gender This development in turn has enabled some women in the region to construct their own gendered identities for their own political economic or social purposes Beginning with an understanding of gender as both a society wide institution that regulates people s lives and a cultural toolkit which individuals and groups may use to subvert or transvalue the sex gender system the contributors to this volume provide detailed case studies from Belarus Bosnia the Czech Republic Poland Romania Russia and Ukraine This collaboration between young scholars most from postcommunist states and experts in the fields of gender studies and postcommunism combines intimate knowledge of the area with sophisticated gender analysis to examine just how much gender realities have shifted in the region Contributors are Anna Brzozowska Karen Dawisha Nanette Funk Ewa Grigar Azra Hromadzic Janet Elise Johnson Anne Marie Kramer Tania Rands Lyon Jean C Robinson Iulia Shevchenko Svitlana Taraban and Shannon Woodcock *Runaway Bride* Marilyn Shank, 1999 *Change of Heart* Sandra D.
