Cyclical Time Ismaili Gnosis:

Cyclical Time & Ismaili Gnosis Henry Corbin, 2013-01-11 First published in 1983 The volume *Cyclical Time and Ismaili Gnosis* brings together in English translation three of Henry Corbin's richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in 1956 Each of these three relatively early studies is built around a complex highly creative comparison of the phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in an equally wide range of Islamic texts eventually preserved in the later Ismaili Shi'i tradition

Cyclical Time and Ismaili Gnosis Henry Corbin, 1983 First Published in 1983 Routledge is an imprint of Taylor Francis an informal company *Historical Dictionary of the Ismailis* Farhad Daftary, 2025-12-11 Designed as a mini encyclopedia this dictionary will serve as first point of reference for information on all the key Ismaili figures concepts institutions and traditions as well as regions of importance in Ismaili history In addition numerous Muslim dynasties and figures with whom the Ismailis have come into contact are included

Extremist Shiites Matti Moosa, 1988-02-01 Little is known in the West about the division of the Islamic world into Shiites and Sunnites and even less about the stratification of these two groups with most of the attention going to the Sunnites Moosa's comprehensive study of the origins and cultural aspects of the different extremist or Ghulat Shiite sects in the Middle East is a ground breaking work These sects whose extremism is essentially religious are generally a peaceful people and except for the Nusayris of Syria are not political activists

Mysticism and Philosophy in al-Andalus Michael Ebstein, 2013-11-21 Muslim Spain gave rise to two unusual figures in the mystical tradition of Islam Ibn Masarra 269 883 319 931 and Ibn al Arab 560 1165 638 1240 Representing respectively the beginning and the pinnacle of Islamic mysticism in al Andalus Ibn Masarra and Ibn al Arab embody in their writings a type of mystical discourse which is quite different from the Sufi discourse that evolved in the Islamic east during the 9th 12th centuries In *Mysticism and Philosophy in al Andalus* Michael Ebstein points to the Ismaili tradition as one possible source which helped shape the distinct intellectual world from which both Ibn Masarra and Ibn al Arab derived By analyzing their writings and the works of various Ismaili authors Michael Ebstein unearths the many links that connect the thought of Ibn Masarra and Ibn al Arab to the Ismaili tradition

Early Philosophical Shiism Paul E. Walker, 1993-07-30 The first book length study of a leading tenth century Ismaili theoretician Abu Ya'qub al-Sijistani Jewish History and Jewish Memory Yosef Hayim Yerushalmi, 1998 Publication of Yosef Yerushalmi's *Zakhor* in 1982 inspired a generation of scholarly inquiry into historical images and myths the construction of the Jewish past and the making and meaning of collective memory Here eminent scholars in their respective fields extend the lines of his seminal study into topics that range from medieval rabbinics homiletics kabbalah and Hasidism to antisemitism Zionism and the making of

modern Jewish identity Essays are clustered around four central themes historical consciousness and the construction of memory the relationship between time and history in Jewish thought the demise of traditional forms of collective memory and the writing of Jewish history in modern times

All the World an Icon Tom Cheetham, 2012-07-03 All the World an Icon is the fourth book in an informal quartet of works by Tom Cheetham on the spirituality of Henry Corbin a major twentieth century scholar of Sufism and colleague of C G Jung whose influence on contemporary religion and the humanities is beginning to become clear Cheetham's books have helped spark a renewed interest in the work of this important creative religious thinker Henry Corbin 1903-1978 was professor of Islamic religion at the Sorbonne in Paris and director of the department of Iranic studies at the Institut Franco Iranien in Teheran His wide ranging work includes the first translations of Heidegger into French studies in Swedenborg and Boehme writings on the Grail and angelology and definitive translations of Persian Islamic and Sufi texts He introduced such seminal terms as the imaginal realm and theophany into Western thought and his use of the Shi'ite idea of ta wil or spiritual interpretation influenced psychologist James Hillman and the literary critic Harold Bloom His books were read by a broad range of poets including Charles Olson and Robert Duncan and his impact on American poetry says Cheetham has yet to be fully appreciated His published titles in English include Creative Imagination in the Sufism of Ibn Arabi Avicenna and the Visionary Recital and The Man of Light in Iranian Sufism As the religions of the Book place the divine Word at the center of creation the importance of hermeneutics the theory and practice of interpretation cannot be overstated In the theology and spirituality of Henry Corbin the mystical heart of this tradition is to be found in the creative active imagination the alchemy of spiritual development is best understood as a story of the soul's search for the Lost Speech Cheetham eloquently demonstrates Corbin's view that the living interpretation of texts whether divine or human or indeed of the world itself seen as the Text of Creation is the primary task of spiritual life In his first three books on Corbin Cheetham explores different aspects of Corbin's work but has saved for this book his final analysis of what Corbin meant by the Arabic term ta wil perhaps the most important concept in his entire oeuvre Any consideration of how Corbin's ideas were adapted by others has to begin with a clear idea of what Corbin himself intended writes Cheetham his own intellectual and spiritual cosmos is already highly complex and eclectic and a knowledge of his particular philosophical project is crucial for understanding the range and implications of his work Cheetham lays out the implications of ta wil as well as the use of language as integral part of any artistic or spiritual practice with the view that the creative imagination is a fundamentally linguistic phenomenon for the Abrahamic religions and as Corbin tells us prayer is the supreme form of creative imagination
