Czechoslovakia In Transition Politics Economy And Society:

Czechoslovakia in Transition Sharon L. Wolchik,1991 A multi disciplinary examination of the modern political history economic system and social institutions of Czechoslovakia this study evaluates the successes and failures of the Marxist regime and concludes with analysis of the reasons for and events since its collapse in 1989 *The Political Economy of State-Society Relations in Hungary and Poland* Anna Seleny,2006-02-13 This book shows how Hungary and Poland led the transformations that brought down Communism **Minorities and Law in Czechoslovakia, 1918-1992** Jan Kuklík,René Petráš,2017-05-01 Ethnic minority issues played an important role in the history of Czechoslovakia from 1918 during World War II and in the years immediately following it Czechoslovakia became a model for solving ethnic and minority problems and legal regulations had always played a key role in the status of minorities This book which deals with issues concerning ethnic and language minorities in Czechoslovakia from a long term perspective is primarily intended for foreign readers In recent years ethnic minority issues are once again becoming relevant in Europe and thorough knowledge of earlier problems and solutions may facilitate further examination of the current problems Czech Law in Historical Contexts Jan Kuklík,2015 The legal system of the present day Czech Republic would not be understood properly without sufficient knowledge of its historical roots and evolution This book deals with the development of Czech law from its initial origins as a form of Slavic law to its current position reflecting the influence of the legal systems of neighbouring countries and that of Roman law The reader can see how a legal system originally based on custom developed into written and codified law Czech law was fully dependent upon developments within the Luxemburg Jagiellonian and primarily Habsburg monarchies although some features remained autonomous The 20th century is particularly important in the development of the Czech state and law of today namely due to the establishment of an independent Czechoslovakia in 1918 and its split in 1992 giving rise to the independent identities of the Czech Republic and the Slovak Republic It was a century encompassing periods of democratic as well as totalitarian regimes political ideological economic and social changes stemming from such transformations were projected into and reflected in the system of Czechoslovak and Czech law It can therefore serve as a case study for researchers interested in the transition of democratic legal systems into totalitarian regimes and vice versa *Revolution and Change in Central and Eastern Europe* Minton F. Goldman,1997-01-15 This study provides a comprehensive introduction to the nations of Central and Eastern Europe over a half century of turbulent change Detailed chapters on each country of the region describe the features of the country s communist regime and its collapse *State and Society in Post-Socialist Economies* J. Pickles,2008-01-17 State and Society in Post Socialist Economies focuses on the reform economies of post socialist Europe It looks at how various projects of communism that emerged in have been and are still being dismantled and recomposed by alternative visions institutions and practices of capitalist market economies and democratic polities **Handbook of Political Science Research on the USSR and Eastern Europe** Ray

Taras,1992-10-23 This critical history of and guide to Soviet studies aims to take stock of the achievements and shortcomings in Western research on the region s politics and to serve as a who s who of Western Sovietologists identifying many prominent political scientists from the former Communist states The Road to the European Union: The Czech and Slovak Republics Jacques Rupnik,2003 The Baltic states are at the doorstep of accession to the European Union In the space of just ten years Estonia Latvia and Lithuania have gone from being fragile and largely unknown ex Soviet republics to having a clear and acknowledged place in the construction of Europe What are the challenges and adjustments that the three countries have had to undergo during this momentous journey This volume profiles a range of social political and economic developments in the Baltic states during the 1990s and the early years of the twenty first century Its ten chapters tell the story of how small states struggle to establish themselves in regional and international politics how they attempt to resolve relations with former rulers how they address questions of multiethnic democracy and social integration how they build state administrations and foster democratic constitutional norms and how they reorganise economic structures and develop foreign trade It will serve as an excellent companion volume for those studying both EU enlargement and post communist transition *Political Change in Eastern Europe Since 1989* Robert Zuzowski,1998-06-25 This political analysis explains why some Eastern European countries are politically victorious and economically prosperous whilst others are not It shows how the roots of these countries relative success and failure were sown during fundamental changes allied to the demise of communism The New Right in the New Europe Seán Hanley,2007-08-07 Using the Czech example this book considers the emergence of centre right parties in Eastern Europe following the collapse of communism **Nationalism and Ethnic Conflict** Stephen Iwan Griffiths,1993 This report provides an analysis of the significance of nationalism and ethnic conflict in the affairs of the populations of central and eastern Europe It describes and analyses nationalist developments particularly in the former states of Yugoslavia and Czechoslovakia and examines the response of European security institutions to problems of ethnic nationalism **Conference on Business and Economic Development in Central and Eastern Europe and Its Implication for the Economic Integration of the CEEC in a Wider Europe** ,1997 **Problems of Democratic Transition and Consolidation** Juan J. Linz,Alfred Stepan,1996-08-22 Since their classic volume *The Breakdown of Democratic Regimes* was published in 1978 Juan J Linz and Alfred Stepan have increasingly focused on the questions of how in the modern world nondemocratic regimes can be eroded and democratic regimes crafted In *Problems of Democratic Transition and Consolidation* they break new ground in numerous areas They reconceptualize the major types of modern nondemocratic regimes and point out for each type the available paths to democratic transition and the tasks of democratic consolidation They argue that although nation state and democracy often have conflicting logics multiple and complementary political identities are feasible under a common roof of state guaranteed rights They also illustrate how without an effective state there can be neither effective citizenship nor successful privatization Further they provide criteria and evidence for

politicians and scholars alike to distinguish between democratic consolidation and pseudo democratization and they present conceptually driven survey data for the fourteen countries studied Problems of Democratic Transition and Consolidation contains the first systematic comparative analysis of the process of democratic consolidation in southern Europe and the southern cone of South America and it is the first book to ground post Communist Europe within the literature of comparative politics and democratic theory This is an important volume by two major scholars on a central topic one of broad interest to people in comparative politics to those interested in democracy and to regional specialists on Southern Latin America and on Central and Eastern Europe The book will unquestionably be a major contribution to the literature on constructing democratic governance Abraham F Lowenthal University of Southern California The Road to the European Union Jacques Rupnik, Jan Zielonka, 2003-11-08 This book the first of two volumes covers the preparation for accession to the European Union in the Czech and Slovak Republics The chapters focus on the conceptual challenges facing the European Union as a result of the enlargement process such as institutional reform Europe s new borders and the cultural identity of an enlarged Union Each chapter also identifies and analyzes the problems facing the individual East European applicant from a comparative perspective It examines the causes and implications of the Czech Slovak break up and the two nations separate road to the European Union **The Government and Politics of Postcommunist Europe** Andrew Michta, 1994-05-25 This timely book surveys political change in postcommunist Europe It concentrates on the western periphery of the former Soviet empire and covers the countries of four regions East Central Europe Poland the Czech Republic Slovakia and Hungary the Balkans Bulgaria Romania Slovenia Croatia the Third Yugoslavia Macedonia and Albania the Baltic Rim Lithuania Latvia and Estonia and Eastern Europe Belarus and Ukraine The book charts the changes in each of these countries It provides a brief overview of the history and communist legacy of each country then reviews the new constitutional framework the principal political parties and their orientation the direction and scope of economic reform and the foreign and security policies Throughout it evaluates the extent and direction of postcommunist transformation in each country and its prospects for becoming a viable member of the new European order By its concentration on the actual elements of the emerging political systems and its currency this is essential reading for students and scholars of Eastern Europe and contemporary international affairs Patrons of public and school libraries will find it an important resource as well *The American Historical Association's Guide to Historical Literature* American Historical Association, 1995 Contains nearly 2 000 annotated citations primarily English language works divided into forth eight sections citations refer chiefly to works published between 1961 and 1992 **Implications of the Czecho-Slovak Divorce for EU Enlargement** Jacques Rupnik, 2000 *Environment and Society in Eastern Europe* Andrew Tickle, Ian Welsh, 1998 Providing a detailed examination of the role of environmental movements that marked the end of state socialism in Eastern Europe this text identifies major trends and issues and suggests possible solutions **Eastern Europe, 1986-1993** Robert H.
