*Cut and Construct Your Own Brontosaurus* Alan Robbins,1988-11-01      **A Small Box of Chaos** Alan

Robbins,2005-04-25 There are cameras at every turn smart buildings that know all about you virtual realities that overcome real ones And there is instant access to all of it through a computer the size of a credit card The year is 2040 and constant monitoring is the price you pay for being connected But can you get away with murder in such a world That is the problem facing data maven and control freak Aldo Weeks when a single lapse in judgment plunges him into unknown terrain First there is a midnight tryst with an exotic redhead Then a murderous duet with a madman As he tries to outwit the vast net of information he encounters a strange puzzle box at the center of the whole affair a box of chaos that might just hold the key to how complexity rules the universe      **MazelTales** Alan Robbins,      Stories at the Edge of Time Alan Robbins,2007-10 A family on the last starship finds that stories themselves may very well save a dying world In one of those stories a man dies of radio while another finds a new lease on life in an ancient dingus A phone that can be used to call a few minutes into the future leads to unexpected turmoil An anthroid on trial for a murder may be the victim of a faulty linguistic circuit A retired astronaut who cannot get his footing the last librarian on earth tales of a future ghetto where surprise is still a possibility and a mathematician whose brilliant insight continually slips his mind These are few of the themes to be found in this collection of mystery science fiction tales in the speculative tradition of the satires of Kurt Vonnegut and the ironies of Jorge Luis Borges from the author of *A Small Box of Chaos* and the award winning *An Interlude in Dreamland*      **Following the Trail of Blood** Alan Robbins,2009-02 The year is 1671 during the time known as the Restoration in the England of King Charles II London is recovering from the ravages of the Great Plague and the fire that destroyed more than half of the city Scoundrels and earls merchants and midwives and remarkable personalities like William Penn Isaac Newton and Thomas Hobbes inhabit its teeming streets Against this background the notorious thief and swindler Colonel Thomas Blood is preparing to commit an audacious and daring crime It is into this dizzying mix that D is suddenly thrust having slipped through a rip in time But can this very 21st century citizen make sense of such an alien world and more importantly stop the crime in time to fulfill the destiny that will guide D home 350 years into the future This book is time travel mystery based on the true story of the greatest crime of the 17th century      AN INTERLUDE IN DREAMLAND Alan Robbins,2005-09-08 Her name is Mama Nostromento and someone close to her has been murdered She may be the only one who knows why But the truth is locked inside her mind lost in a tangle of thoughts as a neurovirus ravages her memory Enterman expert in intuition and reluctant investigator of strange events is called in to find the answer and Rita St John a beautiful and very uncommon bodyguard is there to protect him It is 2050 and the worldwide communications net known as the Glob ties everyone together But can all the technology of the near future instant information at the merest whisper help them to solve this mystery before time runs out The answer lies in a secret world hidden from outsiders under the ruins of old Coney Island It is a world of mythic forces

and dark rituals that threatens to overpower even the latest high tech wizardry Because Mama Nostromento is no ordinary witness she is a banshee gatekeeper for the dead A Call for Murder Alan Robbins,1988 **Paperbound Books in Print**,1992 **Children's Book Review Index 85-94 V 3** George Baer,1995-12-04 Forthcoming Books Rose Army,1989-05 *The Publishers Weekly*,1988 **Hit of the Party**,1994 All projects offer simple step by step instructions easy to follow diagrams time saving tips and partyplanning guidelines Many projects use recycled materials to help save the environment and there s even a special section for photo and video tips One of the most unique features of this book are the photocopy projects Save time and money by photocopying your own invitations thank you notes theme decorations costumes and party favors Hit of the Party has everything in one book to give your child a birthday celebration that will be cherished forever Book jacket **Instructor**,1994 Make Your Own Paper Dinosaurs Sally Walton,Stewart Walton,1994-11 Ten full size patterns for dinosaurs which can be folded into a 3 D model then placed inside the book in a fold out prehistoric model **The Delineator** R.
