Heritage Crime Louise Grove, Suzie Thomas, 2014-10-06 Bringing together leading academics and practitioners from across the globe this unique collection explores the emerging field of heritage crime studies Moving beyond the traditional focus on illicit antiquities the volume identifies the diversity of crimes that affect heritage and outlines various approaches to prevention The Armenian Church of Famagusta and the Complexity of Cypriot Heritage Michael J.K. Walsh, 2017-04-27 This book explores seven centuries of change in Cyprus and the Eastern Mediterranean world through the rise and fall of Famagusta's medieval Armenian Church An examination of the complex and its art escorts the reader from the era of the Crusades in Lusignan Cyprus through the rise and fall of the Venetian Ottoman and British Empires to the political stasis of the present day The Armenian church was a home for displaced villagers during the post independence era became a military storage facility post 1974 and eventually fell into abandonment once again This study represents a pioneering history of the Armenian community in Famagusta and a probing analysis of the art and architecture it left behind It is also a permanent record of the long term engagement and commitment of Nanyang Technological University Singapore the World Monuments Fund and the Famagusta Municipality to protect this precious site under extremely challenging circumstances **Odisea nº 7: Revista de estudios ingleses** José Ramón Ibáñez Ibáñez, 2015-11-10 Revista de Estudios Ingleses es un anuario dirigido y gestionado por miembros del Departamento de Filología Inglesa y Alemana de la Universidad de Almería con el propósito de ofrecer un foro de intercambio de producción científica en campos del conocimiento tan diversos como la lengua inglesa literatura en lengua inglesa didáctica del inglés traducción para fines específicos y otros igualmente vinculados a los estudios ingleses **Knowledge, Differences and Identity in the Time of Globalization** James Kusch, 2011-05-25 The discourse of globalization that pertains to higher education reform is troubling The first troubling thing about much of the discourse that concerns globalization is that it most often does not name a human subject We propose that globalization discourse should be written for and directed towards human beings or students The second troubling thing about the discourse of globalization is the way that it antagonizes and marginalizes who that missing subject might be The two relationships form the themes of this book The nature and logic of discourse about globalization expresses a social rationality that serves as a precondition to constructing relevant meanings The way that we conceive or obscure the subject produces a condition or position where those whom are the subject of the discourse must indeed await its effects who is the pertinent policy about Or for whom is policy intended Much policy discourse holds consequences for the way in which outcomes of policies are understood or explained in the social milieu where policies are enacted The same discourse constructs and

deconstructs identities and as we will see the language of reform in fact antagonizes and marginalizes students by virtue of a particular vagueness in the discourse and symbols of the discourse What is at issue in the discourse of globalization is the character and logic of collective identities How then to relate students to the cluster of features that comprise globalization
