Bryden** John A Vissers, 2011-11-24 Walter W Bryden was Principal of Knox College Toronto after the Second World War and one of the leading Presbyterian theologians of the period from the 1920s to the 1950s In *The Neo Orthodox Theology of W W Bryden* John Vissers makes an important contribution by analysing Bryden's thought placing it in the context of contemporary European and American theology Vissers emphasises in particular Bryden's role in introducing and popularising the ideas of Karl Barth in North America prior to the translation of Barth's Commentary on Romans into English and his Neo Orthodox theology owed much to Barthian ideas In his most important work *The Christian's Knowledge of God* Bryden challenged the modernist emphasis on the rational arguing for a Christocentric doctrine of Revelation Vissers brings a wealth of scholarship and research to his subject revealing Bryden's pivotal role in the development of neo orthodoxy within the Protestant tradition in North America a role that previous studies have often failed to explore **National Union Catalog**, 1956 Includes entries for maps and atlases **Providence and Prayer** Terrance L. long debated topic Istafanous draws upon Calvin s twofold structure regarding salvation to illumine the Reformer s twofold knowledge of God with particular focus on biblical authority In doing so Istafanous presents Calvin s view of biblical authority framed within modern discussions of inspiration In the 1539 edition of the Institutes and in all subsequent editions John Calvin presented justification and sanctification as the twofold grace of God He repeatedly taught this concept in all of his commentaries sermons and other writings More than any other reformer Calvin used the twofold grace to express the full relationship between justification and sanctification In the definitive edition of the Institutes 1559 Calvin introduced the concept of the twofold knowledge of God This framework has been considered by many as the ordering principle of the Institutes and all of Calvin s theology Istafanous argues that the twofold Grace inspired Calvin to introduce the concept of the twofold knowledge in 1559 Thus the twofold grace of God provides the key to understanding the twofold knowledge specifically and Calvin s theology generally
