Bamberts Of Missing Stories:

Bambert's Book of Missing Stories Reinhardt Jung, 2009-03-25 ONE DAY MR Bambert a sweet but shy man decides to send 11 stories out into the world He attaches them to little hot air balloons and lets them go on windy nights with a letter asking that whoever finds them send them back Wherever the stories are returned from is where they will be set The 11th story is blank Bambert hopes it will write itself Slowly the stories come back with postmarks from all over the world including one from the past All that s left is the last one the one that has to write itself In this magical little story with a twist the power of kindness stories and hope is woven together to create a soul warming poignant tale that readers will want to read again and again Praise for *Dreaming in Black and White* A short quiet yet memorable novel that challenges its audience with questions worth asking Booklist

A Stunning Collection Of Missing Persons Cases And Stories Of Missing People And Their Unusual Disappearances People disappear everyday some of them turn up murdered some willingly escaped their current lives while some cases remain to be clouded with mystery Day by day we hear and read about missing people but we take them for granted because none of them

are connected to us For the families of the people who disappeared they are constantly hoping that the public would care enough if they happen to see a person who resembles their lost loved one Who knows perhaps if you were just familiar with the case you would be able to identify one missing persons But what happens to these people is mostly unknown Sure we speculate but most of the time we will never really know the truth

Missing People Phil Coleman,2017-09-12 MISSING PEOPLE Gone Without A TraceAn FBI studied showed in 2014 there were 83 957 people missing in the United States An average of 750 000 missing persons cases are reported each year with around 2 000 people being reported missing daily When a missing person report is filed the longer the case goes on without the person re appearing the more likely the missing person in question is dead from either homicide or natural causes The majority of missing people are white male adults missing children are rightfully more covered by the media as studies show that the first three hours after a child is missing is when they are most likely to be murdered if killing the child is the intent of the abductor With increased technology improvements in DNA evidence gathering and better law enforcement communication and cooperation solving missing persons cases should have gotten easier and been more successful over time However solving these cases is still difficult and many are never found This is the story of some of those cases affecting victims who still remain unfound Where did these people go What fate befell them And will they ever be found

Missing People Ryan Gillmore,2016-04-18 Unusual Missing Persons Cases Reports And True Stories Of Missing People 5 years 10 15 or 50 it doesn't matter how many years have gone by if you have a loved one who went missing and never returned each year can be torture The moment the news of a disappearance has spread people will start giving you clues leads will overflow and suspicions will pour out Even if you take each of the tips seriously it's not a guarantee that you will be reunited with your loved one Disappearance cases are always stressful In the cases we will discuss in this book you will realize that one detail from the past can make a brother suspect his sister You will notice that even though the leads are abundant most of them are vague incapable of pointing you in the right direction The case could have happened almost 8

decades ago but a new lead will emerge Ordinary people no matter how simply they live can always have something sinister come upon them
