Conversing With Cage:

Conversing with Cage Richard Kostelanetz, 2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **Conversing with Cage** Richard Kostelanetz, 1988 John Cage was perhaps the 20th century's most radical classical composer From his famous silent piece 4 33 to his proclamation that all sound is music Cage stretched the aesthetic boundaries of what could be performed in the modern concert hall But more than that Cage was a provocative cultural figure who played a key role in inspiring scores of other artists and social philosophers in the second half of the 20th century Through his life and work he created revolutions in thinking about art and its relationship to the world around us *Conversing with Cage* is the ideal introduction to this world offering in the artist's own words his ideas about life and art Book jacket *Conversing with Cage* John Cage, Richard Kostelanetz, 1989-01-01 P omslaget John Cage on his world and his work **Conversing with (John) Cage. - New York: Limelight Ed. 1988. 299 S. 8°** John Cage, Richard Kostelanetz, 1988

Smile of the Buddha Jacquelynn Baas, 2005 The relations between eastern and western cultures have long been a neglected topic and this careful and intelligent look at a small but significant part of those relations is most welcome Thomas McEvelley author of *The Shape of Ancient Thought* How wonderful that Jacquelynn Baas has seen the light of the Buddha's smile shining from faraway Asia into the realm of the art of modern times in what we think of as the West Her work reveals how some of our most influential artists explored and expressed the sophisticated perceptions and joyful energy emanating from the realm of Buddhist Asia Robert A F Thurman As a Buddhist scholar and artist I welcome this thoughtful and richly detailed study of how many aspects of Buddhism have stimulated invigorated and enriched Western arts over the past 150 years Stephen Addiss author of *The Art of Zen* A crucial contribution to modern art studies this high spirited text surveys Western artists awakened by the wisdom of the East from Monet and Duchamp to O Keeffe to Martin It is a thoughtful book about thoughtful artists their values and their visions with a lot to offer general readers and specialists alike Charles Stuckey Associate Professor of Art History at the School of the Art Institute of Chicago *Erik Satie: Music, Art and Literature* Caroline Potter, 2016-05-13 Erik Satie 1866 1925 was a quirky innovative and enigmatic composer whose impact has spread far beyond the musical world As an artist active in several spheres from cabaret to religion from calligraphy to poetry and playwriting and collaborator with some of the leading avant garde figures of the day including Cocteau Picasso Diaghilev and Ren Clair he was one of few genuinely cross disciplinary composers His artistic activity during a tumultuous time in the Parisian art world situates him in an especially exciting period and his friendships with Debussy Stravinsky and others place him at the centre of French musical life He was a unique figure whose art is immediately recognisable whatever the medium he employed *Erik Satie Music Art and Literature* explores many aspects of Satie's creativity to give a full picture of this most multifaceted of composers The focus is on Satie's philosophy and psychology revealed through his music Satie's interest in and participation in artistic media other than music and Satie's collaborations with other artists This book is therefore

essential reading for anyone interested in the French musical and cultural scene of the late nineteenth and early twentieth century *The Process That Is the World* Joe Panzner, 2015-12-17 *The Process That Is the World* grapples with John Cage not just as a composer but as a philosopher advocating for an ontology of difference in keeping with the kind posited by Gilles Deleuze Cage's philosophy is not simply a novel method for composition but an extensive argument about the nature of reality itself the construction of subjects within that reality and the manner in which subjectivity and a self-creative world exist in productive tension with one another Over the course of the study these themes are developed in the realms of the ontology of a musical work performance practices ethics and eventually a study of Cagean politics and the connection between aesthetic experience and the generation of new forms of collective becoming together The vision of Cage that emerges through this study is not simply that of the maverick composer or the inventor of genius but of a thinker and artist responding to insights about the world as process as it extends through the philosophical artistic and ethical registers the world as potential for variance reinvention and permanent revolution *The Musical Quarterly* Oscar George Sonneck, 1995

The Oxford History of Western Music: The late twentieth century Richard Taruskin, 2005 **John Cage** Rob Haskins, 2013-02-15 American writer composer artist and philosopher John Cage 1912-92 is best known for his experimental composition 4 33 a musical score in which the performer does not play an instrument during the duration of the piece The purpose Cage said was for the audience to listen to the sounds of the environment around them while the piece was performed Groundbreaking pieces such as 4 33 as well as Sonatas and Interludes not only established Cage as a leading figure in the postwar avant garde movement but also cemented the enduring controversy surrounding his work In this new biography Rob Haskins explores Cage's radical approach to art and aesthetics and his belief that everyday life and art are one and the same Scrutinizing Cage's emphasis on chance over intention which rejected traditional artistic methods and caused an uproar among his peers Haskins elucidates the ideas that lay behind these pillars of Cage's work Haskins also demystifies the influence of Eastern cultures particularly Zen Buddhism on Cage including his use of the Chinese text *I Ching* as his standard composition tool in all his work after 1951 Adding to our understanding of the art music and ideas of the twentieth century this book provides an engaging look at a man who continues to challenge and inspire artists worldwide
