Cooperatives and Local Development Christopher D. Merrett,Norman Walzer,2016-09-16 First Published in 2004 The market economy has changed profoundly over the past two centuries In the nineteenth century business enterprises were largely single product ventures managed directly by the owners and rooted within national economies In the twentieth century firms employed managers who were not owners Firms also evolved into multiproduct multiunit entities that could employ thousands of workers In the twenty first century many firms operate on a global scale taking advantage of free trade policies and rapidly evolving computer and telecommunications technologies Given this potential it is crucial that producers consumers economic developers and researchers realize how co ops can promote local economic and community development Hence this book includes the perceptions of experts on a variety of cooperative issues including the challenges involved in starting a co op and in understanding its impact on surrounding communities This book can be especially useful because it provides the theoretical foundations and practical applications of cooperative behavior

Cooperatives, Grassroots Development, and Social Change Marcela Vásquez-Léon, Brian J. Burke, Timothy J. Finan, 2017-03-14

Cooperatives Grassroots Development and Social Change presents examples from Paraguay Brazil and Colombia examining what is necessary for smallholder agricultural cooperatives to support holistic community based development in peasant communities Reporting on successes and failures of these cooperative efforts the contributors offer analyses and strategies for supporting collective grassroots interests Illustrating how poverty and inequality affect rural people they reveal how cooperative organizations can support grassroots development strategies while negotiating local contexts of inequality amid the broader context of international markets and global competition The contributors explain the key desirable goals from cooperative efforts among smallholder producers They are to provide access to more secure livelihoods expand control over basic resources and commodity chains improve quality of life in rural areas support community infrastructure and offer social spaces wherein small farmers can engage politically in transforming their own communities The stories in Cooperatives Grassroots Development and Social Change reveal immense opportunities and challenges Although cooperatives have often been framed as alternatives to the global capitalist system they are neither a panacea nor the hegemonic extension of neoliberal capitalism Through one of the most thorough cross country comparisons of cooperatives to date this volume shows the unfiltered reality of cooperative development in highly stratified societies with case studies selected specifically because they offer important lessons regarding struggles and strategies for adapting to a changing social economic and natural environment Contributors Luis Barros Brian J Burke Charles Cox Luis Alberto Cu llar G mez Miguel Ricardo D vila Ladr n de Guevara Elisa Echag e Timothy J Finan Andr s Gonz lez Aguilera Sonia Carolina L pez Cer n Joana Laura Marinho Nogueira Jo o Nic dio Alves Nogueira Jessica Piekielek Mar a Isabel Ram rez Anaya Rodrigo F Renter a Valencia Lilliana Andrea Ruiz Mar n Marcela V squez Le n
