Coordinating Australian University Development:

Coordinating Australian University Development A. P. Gallagher, 1982 Changes in the coordinating activities of the Australian Universities Commission AUC between 1959 and 1970 are discussed along with events leading to the creation of the Australian Research Grants Committee and the Academic Salaries Tribunal In addition to reviewing relevant literature and official documents interviews were conducted with university and government officials Attention is directed to the role of the Commonwealth government in formulating education policy in the 1960s and the tensions faced by a large Commonwealth statutory authority in action The AUC s role in responding to the following four tensions are addressed providing advice to the Commonwealth on the universities financial and developmental needs as part of its role as both an advisory and regulatory body and administering programs of recurrent and capital grants that the AUC recommended ensuring a proper balance of national needs and states rights reconciling changing views of university autonomy with changing government views regarding the accountability by universities for public funds provided to them and safeguarding its own autonomy while serving successive ministers of education and cooperating with federal government departments responsible for coordinating the overall development of the Commonwealth s role in education SW

The Making of the Australian National University, 1946-1996 Stephen Glynn Foster, Margaret M. Varghese, 2009-08-01 First published 1996 This edition with new introduction published July 2009 The Australian National University has always been a university with a difference Conceived in the mid 1940s to serve Australia s post war needs for advanced research and postgraduate training it quickly embraced the ideals and traditions of Oxford and Cambridge Undergraduate teaching was introduced in 1960 following amalgamation with Canberra University College The University continued to adapt to changes in Australian society while retaining much of its unique structure and objectives Stephen Foster and Margaret Varghese trace the ANU s history from its wartime origins to its fiftieth anniversary in 1996 featuring many of the prominent Australians who contributed to its making Nugget Coombs Howard Florey Mark Oliphant W K Hancock Douglas Copland John Crawford Peter Karmel and others who stood out in particular fields such as J C Eccles Arthur Birch Manning Clark Russell Mathews Ernest Titterton Beryl Rawson John Mulvaney John Passmore and Frank Fenner The Making of The Australian National University explores many themes in higher education during the last half century including academic freedom relations between universities and politicians recruitment practices the two cultures of science and the humanities collegial versus managerial structures equality of opportunity student politics academics and architecture and universities in the marketplace This is an affectionate and critical account of a remarkable Australian institution and more broadly a fascinating study of how institutions work

A History of the Modern Australian University Hannah Forsyth, 2014-10-01 In 1857 all of the Arts students at the University of Sydney could fit into a single photograph Now there are more than one million university students in Australia After World War II Australian universities became less elite but more important growing from six small institutions educating

less than 0.2 per cent of the population to a system enrolling over a quarter of high school graduates. And yet universities today are plagued with ingrained problems. More than 50 per cent of the cost of universities goes to just running them. They now have an explicit commercial focus. They compete bitterly for students and funding, an issue sharply underlined by the latest federal budget. Scholars rarely feel their vice chancellors represent them, and within their own ranks academics squabble for scraps. Knowing Australia is a perceptive, clear-eyed account of Australian universities recounting their history from the 1850s to the present. Investigating the changing nature of higher education, it asks whether this success is likely to continue in the 21st century as the university's hold-over knowledge grows ever more tenuous.

A Place Apart John Riddoch Poynter, Carolyn Rasmussen, 1996-01-01. A highly readable history of the University of Melbourne that examines its growth from a small provincial institution educating the elite of a relatively narrow society to a major teaching and research institution, changes of a magnitude which could never have been envisaged in 1935 when the story begins.

Higher Learning in America, 1980-2000 Arthur Levine, 1993. The next decade promises to be a challenging one for colleges and universities. This book explains why. The essays provide an informative historical guide of the past decade while also looking into the future of higher education. Christian Science Monitor.
