Keener,2021-06-02 How do biological objects communicate make structures make measurements and decisions search for food i e do all the things necessary for survival Designed for an advanced undergraduate audience this book uses mathematics to begin to tell that story It builds on a background in multivariable calculus ordinary differential equations and basic stochastic processes and uses partial differential equations as the framework within which to explore these questions **Mathematical Modeling of Social Relationships** Urszula Strawinska-Zanko,Larry S. Liebovitch,2018-06-07 This edited volume presents examples of social science research projects that employ new methods of quantitative analysis and
