Alien Life and Human Purpose Joseph Packer,2015-09-17 Alien Life and Human Purpose A Rhetorical Examination through History provides a rhetorical examination of the way major historical figures connect their arguments for the absence of alien life or unity to their philosophical religious and ethical agendas Although the unity myth has often existed in the background of society shaping institutions and values during periods where relativism gained prominence its opponents actively wielded the unity myth as a response Plato used the unity myth against the sophists Anglican theologian and philosopher William Whewell against the utilitarians co discoverer of evolution Alfred Russell Wallace against the social Darwinists university professors Frank J Tipler and John D Barrow against the postmodernists etc These individuals presented scientific defenses of unity and then used the fact of unity to claim the universe is teleological knowable and ordered rather than chaotic and relativistic This book argues that unity and its complimentary mythic function have played an important role in shaping values throughout history and more importantly continue to do so today [Alien Life Imagined](#)
