name translates roughly as burned peasant in Swedish Imagine the embarrassment not to mention the loss of revenues that probably ensued And while this example seems amusing after the fact cross cultural miscommunications aren't always benign For instance a large airline manufacturer developed its newest plane model to be flown by two pilots with both pilots helping and correcting each other But what do you suppose happens when the pilots are from a culture in which a subordinate is inhibited by custom from correcting a superior At least one airline company has had several close calls as a direct result of this design flaw which is ultimately a communication lapse Now you may not be involved in public safety or an industry in which communication errors can cause horrendous mishaps But you'll likely soon be working with people from different cultures if you aren't already You need to learn how to handle cultural differences and maximize your communication opportunities And this course will help you do just that You'll learn about important cultural differences that will help you adapt your communication style to be more effective In the first topic you'll learn about the importance of achieving a proper mind set for cross cultural communication In the second topic you'll study aspects of cultures that affect how people communicate across cultural boundaries In the third topic you'll learn about a model of cultural dimensions that will help you enhance your communication abilities The globalization of communication has brought with it opportunities to conduct business with people from all over the world Inevitably this means interactions and relationships between people who are culturally different This is known as cross cultural communication A simple definition of a culture is a group of people who share a common set of attitudes beliefs and behaviors and who communicate through common language or symbols The culture in which people are socialized influences the manner in which they work socialize and interact with others If you want to understand and communicate effectively with people of different cultures it's imperative that you understand how culture affects communication There are many different ways that people of different cultures give and receive information They communicate in a variety of ways through talk silence expression emphasis and gesture People from different cultures place different emphasis on these methods and have distinct expectations as to how each should be used to communicate and what the message is that each conveys The best way to understand intercultural communication is to be aware of the five elements of the communication process The elements are sender encoding channel decoding and receiver To communicate effectively you'll need to understand the cultural context influencing each of these elements
