*Communication and Change in American Religious History* Leonard I. Sweet, 1993 Well known historians explore a fascinating array of topics concerning religious and social change in America from colonial times to the present looking especially at how the emergence of new communications forms contributed to those choices Contributors include Martin E Marty Glenn T Miller Mark A Noll David G Buttrick and others A History of the Book in America Scott E. Casper, Jeffrey D. Groves, Stephen W. Nissenbaum, Michael P. Winship, David D. Hall, 2009-09-15 Volume 3 of A History of the Book in America narrates the emergence of a national book trade in the nineteenth century as changes in manufacturing distribution and publishing conditioned and were conditioned by the evolving practices of authors and readers Chapters trace the ascent of the industrial book a manufactured product arising from the gradual adoption of new printing binding and illustration technologies and encompassing the profusion of nineteenth century printed materials which relied on nationwide networks of financing transportation and communication In tandem with increasing educational opportunities and rising literacy rates the industrial book encouraged new sites of reading gave voice to diverse communities of interest through periodicals broadsides pamphlets and other printed forms and played a vital role in the development of American culture Contributors Susan Belasco University of Nebraska Candy Gunther Brown Indiana University Kenneth E Carpenter Newton Center Massachusetts Scott E Casper University of Nevada Reno Jeannine Marie DeLombard University of Toronto Ann Fabian Rutgers University Jeffrey D Groves Harvey Mudd College Paul C Gutjahr Indiana University David D Hall Harvard Divinity School David M Henkin University of California Berkeley Bruce Laurie University of Massachusetts Amherst Eric Lupfer Humanities Texas Meredith L McGill Rutgers University John Nerone University of Illinois Stephen W Nissenbaum University of Massachusetts Lloyd Pratt Michigan State University Barbara Sicherman Trinity College Louise Stevenson Franklin Marshall College Amy M Thomas Montana State University Tamara Plakins Thornton State University of New York Buffalo Susan S Williams Ohio State University Michael Winship University of Texas at Austin Sex and Citizenship in Antebellum America Nancy Isenberg, 2000-11-09 With this book Nancy Isenberg illuminates the origins of the women s rights movement Rather than herald the singular achievements of the 1848 Seneca Falls convention she examines the confluence of events and ideas before and after 1848 that in her view marked the real birth of feminism Drawing on a wide range of sources she demonstrates that women s rights activists of the antebellum era crafted a coherent feminist critique of church state and family In addition Isenberg shows they developed a rich theoretical tradition that influenced not only subsequent strains of feminist thought but also ideas about the nature of citizenship and rights more generally By focusing on rights discourse and political theory Isenberg moves beyond a narrow focus on suffrage Democracy was in the process of being redefined in antebellum America by controversies over such volatile topics as fugitive slave laws temperance Sabbath laws capital punishment prostitution the Mexican War married women s property rights and labor reform all of which raised significant

legal and constitutional questions These pressing concerns debated in women s rights conventions and the popular press were inseparable from the gendered meaning of nineteenth century citizenship
