Community Memories:

Knowledge and Communities Eric Lesser, Michael Fontaine, Jason Slusher, 2009-11-03 Knowledge and Communities is the first book dedicated to a major new knowledge management topic. Communities of Practice are cross-organizational groups of people sharing knowledge, solving common problems, and exchanging insights and frustrations. Knowledge and Communities: a collection of authoritative articles describes the dynamics of these groups and explains how they enable organizational knowledge to be created, shared, and applied. The book teaches how organizations can empower both traditional and online communities and make them a cornerstone of a general knowledge management strategy. Readers will learn how communities can help unify an organization and its external stakeholders such as customers and suppliers and how they can critically support an e-commerce strategy. Knowledge and Communities will help readers understand a primary vehicle for building an organization's social capital and competitive advantage.

Amoral Communities Mila Dragojević, 2019-10-15 In Amoral Communities Mila Dragojević examines how conditions conducive to atrocities against civilians are created during wartime in some communities. She identifies the exclusion of moderates and the production of borders as the main processes. In these places political and ethnic identities become linked and targeted violence against civilians becomes both tolerated and justified by the respective authorities as a necessary sacrifice for a greater political goal. Dragojević augments the literature on genocide and civil wars by demonstrating how violence can be used as a political strategy and how communities as well as individuals remember episodes of violence against civilians. The communities on which she focuses are Croatia in the 1990s and Uganda and Guatemala in the 1980s. In each case Dragojević considers how people who have lived peacefully as neighbors for many years are suddenly transformed into enemies yet intracommunal violence is not ubiquitous throughout the conflict zone; rather, it is specific to particular regions or villages within those zones. Reporting on the varying wartime experiences of individuals, she adds depth, emotion, and objectivity to the historical and socioeconomic conditions that shaped each conflict. Furthermore, as Amoral Communities describes the exclusion of moderates and the production of borders, limit individuals' freedom to express their views, work to prevent the possible defection of members of an in-group, and facilitate identification of individuals who are purportedly a threat. Even before mass killings begin, Dragojević finds these and similar changes will have transformed particular villages or regions into amoral communities: places where the definition of crime changes and violence is justified as a form of self-defense by perpetrators.

Flood Recovery, Innovation and Response III D. Proverbs, 2012 Flooding claims many lives worldwide each year. In addition, many more lives are affected by homelessness, disease, and crop failures as a result of floods' destructiveness. The number of recent flood events, coupled with climate change predictions and urban development, suggest that these statistics are likely to worsen in the future. Flooding in populated areas can cause substantial property damage as well as threaten human life. Apart from the obvious physical damage to buildings, contents, and loss of life, there are other, more indirect losses that

are often overlooked These intangible impacts are generally associated with disruption to normal life as well as longer term health issues including stress related illness The conference papers cover the following topics Flood risk analysis Flood risk management Urban flood management Flood forecasting Risk assessment and decision making Flood case studies Community resilience to flooding Energy preparedness and response Critical infrastructure protection Flood consequence assessment

Conservation of Architectural Heritage Antonella Versaci,Hocine Bougdah,Natsuko Akagawa,Nicola Cavalagli,2022-03-01 This book focuses on the management and conservation of architectural heritage with the aim of increasing awareness about the value of such conservation and of saving what is left of history which in turn rewards societies by supporting the tourism industry generating economic return and preserving communities identities Since it has become an essential need to manage and conserve the architectural heritage in order to protect the identity and heritage of a city there appeared a gap between the theory and its application Therefore a considerable amount of attention has been directed by experts in this field toward emphasizing the contribution of heritage conservation in order to inspire the development of imaginative useful high quality design

Community Memories Winona L. Fletcher,Sheila Mason Burton,James E. Wallace,Kentucky Historical Society,2003-01-01 While this is a glimpse of Frankfort s African American community it has much in common with other Black communities especially those in the South Although much in the collection that produced this work both photographic and oral history is nostalgic it ultimately demonstrates that change is constant producing both negative and positive results

BOOK JACKET Present Day Papers ,1914

Handbook of Digital Public History Serge Noiret,Mark Tebeau,Gerben Zaagsma,2022-04-04 This handbook provides a systematic overview of the present state of international research in digital public history Individual studies by internationally renowned public historians digital humanists and digital historians elucidate central issues in the field and present a critical account of the major public history accomplishments research activities and practices with the public and of their digital context The handbook applies an international and comparative approach looks at the historical development of the field focuses on technical background and the use of specific digital media and tools Furthermore the handbook analyzes connections with local communities and different publics worldwide when engaging in digital activities with the past indicating directions for future research and teaching activities

The Oxford Handbook of Public History ,2017-09-20 The Oxford Handbook of Public History introduces the major debates within public history the methods and sources that comprise a public historian s tool kit and exemplary examples of practice It views public history as a dynamic process combining historical research and a wide range of work with and for the public informed by a conceptual context The editors acknowledge the imprecision bedeviling attempts to define public history and use this book as an opportunity to shape the field by taking a deliberately broad view They include professional historians who work outside the academy in a range of institutions and sites and those who are politically committed to communicating history to the wide range of audiences This volume provides the information

and inspiration needed by a practitioner to succeed in the wide range of workplaces that characterizes public history today for university teachers of public history to assist their students and for working public historians to keep up to date with recent research This handbook locates public history as a professional practice within an intellectual framework that is increasingly transnational technological and democratic While the nation state remains the primary means of identification increased mobility and the digital revolution have occasioned a much broader outlook and awareness of the world beyond national borders It addresses squarely the tech savvy media literate citizens of the world the digital natives of the twenty first century in a way that recognizes the revolution in shared authority that has swept museum work oral history and much of public history practice This volume also provides both currently practicing historians and those entering the field a map for understanding the historical landscape of the future not just to the historiographical debates of the academy but also the boom in commemoration and history outside the academy evident in many countries since the 1990s which now constitutes the historical culture in each country Public historians need to understand both contexts and to negotiate their implications for questions of historical authority and the public historian s work The boom in popular history is characterized by a significant increase in both making and consuming history in a range of historical activities such as genealogy family history and popular collecting cultural tourism historic sites and memorial museums increased memorialization both formal and informal from roadside memorials to state funded shrines and memorial Internet sites increased publication of historical novels biographies and movies and TV series set in the past Much of this as well as a vast array of new community cultural projects has been facilitated by the digital technologies that have increased the accessibility of historical information the democratization of practice and the demand for sharing authority

Community and Communitarianism Haig Khatchadourian,1999 *Community and Communitarianism* presents and defends in detail a care centered ideal of a good and moral community a form of social organization imbued with the virtues of a care centered ethic such as cooperation in teleological communities cooperation in the realization of communal goals mutual concern and solidarity sympathy and empathy benevolence a spirit of sacrifice and affection love and caring It is argued that a care centered ethic hence a care centered community needs to be constrained and fortified by equal respect for the participants basic human right to be treated as moral subjects together with fair and just treatment Besides contributing to social philosophy the book contributes significantly to ethics
