## Community Of Europe:

**The Community of Europe** Derek W. Urwin,1991 The period since 1945 has seen political events and socio economic developments of enormous significance for the human race This series explores these developments The European Community in Perspective Gerhard Mally,1973 Published for the Atlantic Council of the United States Community Europe Today Roger Broad,Robert J. Jarrett,1972 **The European Community** Émile Noël (OBE.),Commission of the European Communities,1979 **The External Role of the European Community** Gunnar Sjöstedt,1977 **The European Community, the Formative Years** Hans von der Groeben,Commission of the European Communities,1985 The Community of Europe Derek W Urwin Staff,2003-10-01 **European Community** Robert W. Heywood,1990 This is a concise historical overview of the development of European regional community Europe and western Europe in particular which so successfully served as a model for cultural and political nationalism is shown here as an example of a larger successfully functioning regional community one which transcends traditional nation state divisions and rivalries

*Activities of the European Community: General Report of the High Authority* European Coal and Steel Community. High Authority,1955 *(re)constructing Communities in Europe 1918-1968* Stefan Couperus,Harm Kaal,2018-06 This book offers a new perspective on the social history of twentieth century Europe by investigating the ideals and ideas the life worlds and ideologies that emerge behind the use of the concept of community It explores a wide variety of actors ranging from the tenants of London council estates to transnational cultural elites *Uniting Europe* European Community Information Service,1965 **Steps to European Unity** Commission of the European Communities,1980 Uniting Europe European Economic Community,1967 **U.S. Imports** United States. Bureau of the Census,1974 *The European Community* Johan Galtung,2021-05-31 This book first published in 1973 analyses the European Community in a global perspective It asks and answers two main questions what does the European Community mean to the masses of the world and what does it mean to the world community in general Most critical studies of the EC were made from an internal point of view and this book is rare in having an external perspective The author discussed the EC with diverse audiences in 16 countries and his analyses are invaluable in putting the European project in an international context *A Community of Europeans?* Thomas Risse,2015-07-09 In *A Community of Europeans* a thoughtful observer of the ongoing project of European integration evaluates the state of the art about European identity and European public spheres Thomas Risse argues that integration has had profound and long term effects on the citizens of EU countries most of whom now have at least a secondary European identity to complement their national identities Risse also claims that we can see the gradual emergence of transnational European communities of communication Exploring the outlines of this European identity and of the communicative spaces Risse sheds light on some pressing questions What do Europe and the EU mean in the various public debates How do European identities and transnational public spheres affect policymaking in the EU And how do they matter in discussions

about enlargement particularly Turkish accession to the EU What will be the consequences of the growing contestation and politicization of European affairs for European democracy This focus on identity allows Risse to address the democratic deficit of the EU the disparity between the level of decision making over increasingly relevant issues for peoples lives at the EU and the level where politics plays itself out in the member states He argues that the EU s democratic deficit can only be tackled through politicization and that debating Europe might prove the only way to defend modern and cosmopolitan Europe against the increasingly forceful voices of Euroskepticism
